Alfredo Iardino, MD

Orlando Garner, MD

Lavi Oud, MD

Society of Critical Care Medicine
The Intensive Care Professionals

Congratulations to Drs. Alfredo Iardino, Orlando Gardner, and Lavi Oud for the acceptance of their abstract, "**A Pilot Study to Enhance Medical Trainees' Knowledge of the Surviving Sepsis Campaign Guidelines**" at the SCCM 2019 Critical Care Congress!

A SNAPSHOT OF YOUNG CHILDREN'S DEVELOPMENT

ECTOR COUNTY, TX

Thanks to the support of local teachers, Ector County recently completed a community school readiness assessment using the Early Development Instrument (EDI). This report summarizes findings from the EDI, both for the community as a whole and for local neighborhoods. We hope this report will serve as a catalyst for bringing together individuals, organizations and community leaders who are working to improve school readiness and create better environments for our children.

The EDI is a population measure of child development and school readiness, which means that it collects information about kindergarten age children in participating geographic areas and creates an overall snapshot of their developmental progress. The EDI does not label or identify individual children with specific problems.

Instead, it looks at how experiences at home and in the community can help prepare children for the school environment.

The EDI provides local leaders with the information they need to evaluate school readiness, plan how to improve programs and supports, and better coordinate services to help

Reminder:

Special Advisory Committee Meeting
Please see attached

Date: **Tuesday, November 6, 2018**
Place: Room 1C12
Time: 12:00 pm – 1:00pm

Only Drinks will be provided. Be sure to bring your lunch.

Space Flight Project Review Committee

On Monday, November 5, 2018, Drs. Natalia Schlabritz and Kushal Gandhi of the Research Department and Dr. Tara Deaver (Dept. of Family Medicine) sat as reviewers for the ECISD Space Flight Research Project Committee.

They are truly delighted to invest in the students of Ector County through this event!

The Methodology Lab (formerly known as the Learning Resource Center) will be hosting a focus group session that will concentrate on 3D printing and the future of medical education. This event is on Friday, November 9, 2018 in the Preston Smith Library Rare Books Room 12pm. Lunch will be provided by McAlister's Deli, so ***please RSVP by Wednesday, November 7, 2018 with your choice of sandwich.***

TTUHSC
THE METHODOLOGY LAB
PRESTON SMITH LIBRARY

The advent of 3D printing marks the need for a paradigm shift not only in health sciences education, but also everyday medical practices. How that shift is implemented will be shaped by you.

We invite you to participate in a focus group that will explore the direction of The Methodology Lab (formerly known as the Learning Resource Center).

RARE BOOKS ROOM
FRIDAY, NOVEMBER 9, 2018 | 12 PM

Your input will shape the foundation of our program to benefit not only students, faculty, and staff, but also the community at large.

This is an opportunity for you to make your mark on the future of medical education and health care.

Smiley Garcia, who works in Corporations and Foundations in the TTUHSC Office of Institutional Advancement, will be at the TTUHSC-Permian Basin campus on Friday, November 16, 2018. The goals of the Office of Institutional Advancement are:

- to connect you with the right programs, students and patients
- to ensure that your vision for your gift is met
- to celebrate a shared culture of giving and all of the amazing things we can accomplish when we work together to improve the health of our communities.

Mr. Garcia will be speaking at the Regional Research Advisory Committee Meeting from 12:00-1:00 about the many alternate funding opportunities available for faculty. Throughout the day, he will also hold one-on-one meetings to give interested faculty targeted methods for locating funds. **To sign up for a one-on-one meeting time, email Isabel Garza at isabel.garza@ttuhsc.edu.**
