HSC OP: 70.36, Communicable and Transmittable Disease Control in the Employee Workforce

PURPOSE: The purpose of this Health Sciences Center Operating Policy and Procedure (HSC OP) is to establish the TTUHSC policy and procedure for handling employees with communicable and/or transmittable disease in a manner fair to the diseased employee and to provide a safe work environment for all employees.

REVIEW: This HSC OP will be reviewed on March 1 of each even-numbered year (ENY) by the Assistant Vice President for Human Resources, with recommendations for revisions forwarded to the Executive Vice President for Finance and Administration by March 15.

POLICY/PROCEDURE:

1. Definition of Terms.
   a. **Communicable Disease:** A disease easily spread by casual contact and which poses a threat to patients, other employees and/or students.
   b. **Transmittable Disease:** A disease not easily spread by casual contact but which may be blood borne, transmitted sexually or through other bodily fluids, or transmitted in other ways as to pose only a limited threat to patients, other employees and/or students.
   c. **Noncommunicable Disease:** A disease not considered transferable from person to person so as to pose no threat to patients, other employees and/or students.

2. Policy.
   a. TTUHSC is committed to providing fair and equal employment opportunities for all individuals, including those who have been exposed to communicable and/or transmittable diseases. TTUHSC is also committed to providing a safe workplace for all employees and a safe environment for its students and patients which meets or exceeds federal, state, and local regulations.
   b. TTUHSC is legally and ethically required to refrain from releasing any information pertaining to a person diagnosed as having a serious medical illness. Knowledge of any person so affected will be confined to those persons with a direct need to know.
   c. This policy applies to all areas of TTUHSC and personnel administration including, but not limited to, hiring, job assignment, opportunities for training and development, pay, benefits, promotions and demotions, layoffs and terminations, and standards of personal conduct.

3. Procedures - Communicable and/or Transmittable Disease.
   a. An employee who is a victim of a communicable or transmittable disease as determined by medical certification may elect to utilize sick leave, vacation leave, holiday compensation, and temporary disability leave without pay benefits in accordance with TTUHSC policies (see HSC OP 70.01).
   b. An employee who is a victim of a communicable or transmittable disease which poses a threat to patients, other employees or students may be required by the applicable administrative officer to utilize additional sick leave, vacation leave, and/or leave without pay benefits until such time as such threat is removed. The employee may also be required by
TTUHSC to obtain a medical certification that he/she does not represent a threat to patients, other employees and/or students prior to being permitted to return to work at the discretion of the applicable administrative officer.

c. The employee may also be reassigned to other work or to other work areas in order to reduce or remove the threat posed to patients, other employees and/or students.

d. Each case will be evaluated on the basis of that particular case taking into consideration the needs, desires and rights of the employee, the safety of the workplace, and the needs of TTUHSC.

a. An employee who is a victim of a noncommunicable disease as determined by medical certification may elect to utilize sick leave, vacation leave, and temporary disability leave without pay benefits in accordance with TTUHSC policies.

b. Such employees may be permitted to work as long as the employee is able to work a regular schedule and fulfill the duties and responsibilities of the position.

5. Right to Change Policy. TTUHSC reserves the right to interpret, change, modify, amend or rescind this policy in whole or in part at any time without the consent of employees.
