### Mammograms Save Lives. Have You Had Yours?

It is simple and quick. All you have to do is care.

Access to Breast Care for West Texas (ABC4WT) serves women of the Panhandle and South Plains. ABC4WT C-STOPP (Cancer Screening, Treatment, Outreach and Prevention for the Panhandle) has been formed to provide women who live in the Texas Panhandle without access to health care the opportunity for breast health screening.

You don't have to become another statistic. ABC4WT C-STOPP is here to serve women who otherwise might never be able to afford a mammogram.
