Persons needing assistance are requested to call 806-743-1524 or e-mail CIMA@ttuhsc.edu

Dr. J Taylor Harden, a social and behavioral scientist, is Chief of the Office of Special Populations and Assistant to the Director at the National Institute on Aging (NIA) at the National Institutes of Health (NIH). Dr. Harden completed a tour of service as the Acting Deputy Director of NIA in 2008. Prior to joining the NIH in 1994, she was a tenured associate professor at the University of Texas Health Science Center at San Antonio.

As Chief and Assistant to the Director, Dr. Harden has responsibility for multiple activities including coordinating the planning efforts of NIA to improve research on diseases and conditions that affect special populations disproportionately; identifying the needs and guiding the development of initiatives to enhance the research efforts targeted towards special populations which includes outreach and education programs to enhance the research infrastructure at minority institutions; and, serving on NIH committees and workgroups focused on special populations to include women, minorities, and persons with disabilities.

Dr. Harden earned her B.S. degree from the University of Maryland (1972) and her Ph.D. from the University of Texas at Austin (1989) in nursing.
