

Information Technology Strategic Initiative

Proposed Governance Model

Web Strategy Council

Membership – (1) Representative from each school, Health Care Systems and Administration; the Webmaster for each regional campus; and (2) CIO appointees.

Meetings – The Web Strategy Council will meet on a quarterly basis or more frequently at the call of the CIO.

Scope of Responsibilities –

The Web Strategy Council will provide the leadership and expertise needed for TTUHSC to develop a coordinated web strategy. Under the direction of the CIO, the Council will serve as the advisory body for:

- Creating web policies and standards,
- Creating a strategically integrated web environment for TTUHSC,
- Providing seamless access to information and services throughout the web domain,
- Defining site objectives, site development and maintenance responsibilities for major TTUHSC web sites, and
- Providing an institutional approach to skills development and the acquisition of software tools.
