

PGY1 Community Pharmacy Residency Texas Tech University Health Sciences Center School Of Pharmacy (TTUHSC) in Lubbock. TX

TTUHSC

The mission of TTUHSC is to educate students, provide patient care and conduct biomedical and clinical research. We graduate the most health care professionals in the state of Texas. Nationally recognized for innovative programs, academic achievement, and our cutting-edge research, we are training the next generation of highly qualified health professionals. TTUHSC has trained more than 25,000 health care professionals who are serving patients and driving medical discovery in tangible, life-changing ways – both for the 2.75 million people in our immediate service area and around the world.

The flagship campus is in Lubbock, providing five schools within our TTUHSC including the Schools of Medicine, Nursing, Health Professionals, Pharmacy, and Graduate School of Biomedical Sciences.

Mission of TTUHSC Pharmacy

The mission of the TTUHSC Pharmacy is to provide safe, high quality of patient care in an atmosphere of professionalism, respect, and effective communication to the employees, students, residents, and patients of the TTUHSC.

THE RESIDENCY PROGRAM

Residents present posters at ASHP Mid-Year Clinical Meeting and TTUHSC SOP Research Days. This PGY 1 Pharmacy Residency is a one-year residency with Texas Tech University Health Sciences Center School of Pharmacy and United Supermarkets in Lubbock, Texas. The core rotations within this program include patient care, leadership and management, advancement of community-based practice and improving patient care, and teaching, education, and Dissemination of Knowledge. There are electives that can be offered such as sterile compounding and visit to Oncology Clinic at our local prison with one of our pharmacy faculty, ambulatory care with either an adjunct faculty or faculty member. The residency offers a variety of practice rotations to meet the needs and interests of the resident.

The program's structure and design facilitate education and training of the resident in patient care including:

- medication management including comprehensive medication management and target medication intervention services with follow up;
- health and wellness
- immunizations
- disease state management incorporating medication management
- care transitions incorporating medication reconciliation and medication management
- Patient-centered medication distribution

Resident spends no more than 2/3 or more of the program in patient care activities. Resident spend no more than 1/3 of the 12 month program in a practice or environment providing care to same type patients . Patients gain practice and experience patient care delivery ad development

The residency is designed to provide the resident opportunities to strengthen a wide array of clinical skills in a variety of settings. The resident will become familiar with current clinical practices and initiatives in the inpatient setting and will participate in patient care experiences in immunizations, chronic disease management, and community pharmacy administration. Throughout the year, residents will enhance and refine skills by participating in patient care in a variety of settings, providing drug information and

medication counseling, and providing education to students and patients. Residents work closely with pharmacist preceptors to optimize medication regimens, minimize adverse events, and provide patient care. Residents are integrated to work with nurses, physicians, and students from other disciplines. Residents approved documentation in the Electronic Medical Record.(EMR).

Learning Experience (LE)

A big picture synopsis that resident gets and depending how the scheduler arranges it, the LE can be a month, part of a year, or a whole year long.

Residents gain academic experience by serving as preceptors to pharmacy students, teaching in student classes and laboratories, and by participating Teaching Certificate Program. In addition, residents are offered academic appointment during their residency year. Residents attend the annual Alcalde Southwest Leadership Conference for pharmacy residents, fellows, and preceptors. At the Alcalde conference, residents highlight their research project, which is conducted during their residency year. Additionally, at the annual American Society of Health–System Pharmacists (ASHP) Midyear Clinical Meeting, residents present posters showcasing their research and assist with resident recruitment.
