Old Business

A. Establishment of Taskforces

a. 2012 Fall Symposium Task Force – 14 members on the task force represent all schools. So far, they have met twice with a 3rd meeting coming up next week. Save the date flyers were sent out and received great responses. Four teams responded to submit posters. The Task Force has selected a case study and is still working on coming up with questions. Beth Phillips from Communications and Marketing is working with Dr. Jennifer Arnold’s publicist to discuss possible media interviews. Beth will keep us posted on the outcome of the decisions.

b. Interprofessional Team Building Experience Task Force – The original name of the event was “Boot Camp”. Twenty faculty and staff members and twenty student mentors are working together on the event. Council of Deans requested the name change, date change to September 28 and 29, and to ask students to volunteer rather than hand selecting. Deans and President fully support his event. David Miller, President of Spirit Ranch, ask another group to move their event in order to accommodate TTUHSC’s pilot/research project.

c. TeamSTEPPS Task Force – Dr. Pat Francis-Johnson will be training in June, July and August at different campuses.

d. Interprofessional Teamwork Simulation-Based Activities Task Force – They have met and the first set of activities will start next week with a small group of students. There will be activities each month. Interprofessional and Intraprofessional will be 2 3-hour blocks.

e. Core Competencies – Dr. Cindy Acton has contacted some people to begin meeting to discuss core competencies but have not yet scheduled a meeting.

f. IPE President’s Student Scholar Program Task Force – Students have met with President Mitchell and he has committed to $10,000.00 that will be divided among 5 students in 5 different professions throughout the campuses. The interprofessional ambassadors are working on bylaws.
g. **IPE Integration Update** – in the stages of doing an outline. No more than 1 hour per module. All are online videos. Modules are broken up into 4 groups:
- Roles and responsibilities
- Teams and teamwork
- Communication and collaboration
- Ethics and values

h. **Faculty Development** – Five people are going to the IPE Institute: Sharon Decker, Cindy Acton, Paul Tullar, Mary Klein and Carolyn Perry.

**B. Interprofessional Teamwork Course (includes CLARION competition)**

a. Team won 1st place at the National CLARION Competition. Team consisted of 2 junior nursing students and 1 medical student. Story appeared on Statline. Sharon will be contacting Dr. Mitchell to discuss more public recognition for TTUHSC.

**New Business**

**A. Other**

a. Dr. Cindy Acton has been working with faculty in the School of Nursing to integrate the Core Competencies for Interprofessional Collaborative Practice into the core curriculum of the School of Nursing. During this process, the faculty members have discussed various activities occurring during their coursework and the need to involve students from other disciplines. Faculty will be looking to partner with other faculty from different schools to involve students from other schools in their coursework. Cindy has developed a survey (in the initial stages of development) to collect data from HSC faculty in order to facilitate this process. Dr. Acton has requested a faculty member from each school be involved in finalizing the survey to ensure it will meet the needs of each discipline.

b. Debra Notturno-Strong is the new regional dean for the SOP in Abilene. She is a retired air force lieutenant colonel, pharmacist, and teamSTEPPS trained.
