TTUHSC faculty,

The Office of Research is happy to announce that we have partnered with the Office of Institutional Planning and Assessment, as well as Information Technology, to offer you a new way to access information about your research compliance–related trainings, approvals and safety licenses, as well as financial disclosures and conflict management. Starting this semester, you will be able to find up-to-date information in Digital Measures, the online information management system that has been used by TTUHSC faculty since 2010 to store teaching, research, and service activities.

The new Research Compliance section is read-only. It is automatically populated and can be accessed from the Main Menu under Manage Data. The easiest way to get a summary of your information is by running a custom report called Research Compliance Summary Report under the Run Custom Report section. This report lists all of your completed trainings, granted approvals and safety licenses, as well as submitted financial disclosures and conflict management plans, including the respective expiration dates.

Digital Measures can be accessed here: Access to Digital Measures (https://www.ttuhsc.edu/it/shims/digitalmeasures/default.aspx)

More information about Digital Measures, including your school-specific contacts, can be found here: Office of Academic Affairs – Digital Measures (https://www.ttuhsc.edu/academicaffairs/faculty.aspx)

We hope this new feature makes keeping track of research compliance information easier for you.

Sincerely,

P. Michael Conn, Ph.D.
Senior Vice President for Research
Associate Provost
Professor of Internal Medicine and Cell Biology-Biochemistry
Robert C. Kimbrough, III, MD, Professor of Medical Education
