## CONCEPT

This activity is based on needs identified by TTUHSC Paul L. Foster School of Medicine faculty for improving their ability to translate new evidence based technology into practice. Specifically, this workshop is designed to facilitate a multidisciplinary approach for treating Osteoporosis and Osteonecrosis of the jaw through bisphosphonate management and is open to all TTUHSC faculty, residents, nurses, and local dentists.

For nurses, this workshop will relate Safe Harbor Nursing Peer review into practice.

## TARGET AUDIENCE

Physicians, Dentists, Nurses, and other allied healthcare professionals.

## OBJECTIVES

Upon the completion of the conference, the participant should be able to:

- Determine the risks and benefits associated with pharmacologic interventions for Osteoporosis and Osteopenia.
- Discuss and evaluate the risk of osteonecrosis of the jaw in patients treated with bisphosphonates.
- Assess the importance of collaboration between the health care and dental provider when bisphosphonate pharmaco-therapy is considered.
