Medical Student Research Program in Diabetes and Obesity 2015

WHAT:
Conduct laboratory-based, clinical, or translational research under the direction of an established scientist in the area of diabetes or obesity. Prior research experience is not required.

WHEN:
Summer between the first and second year, or between the second and third year, of medical school.

WHY:
Encourage medical students to consider a research career focused on diabetes or obesity.

WHERE:
One of NIH-funded Diabetes Research Centers:
- Boston Area Diabetes Research Center
- Columbia University, New York
- Johns Hopkins/University of Maryland
- Joslin Diabetes Center/Harvard University
- University of Alabama, Birmingham
- University of California, Los Angeles
- University of California, San Diego
- University of California, San Francisco
- University of Chicago
- University of Colorado, Denver
- University of Michigan, Ann Arbor
- University of Pennsylvania, Philadelphia
- University of Washington, Seattle
- Vanderbilt University, Nashville
- Washington University, St. Louis
- Yale University, New Haven

Information and Application:
- Students conduct research with an established scientist in the areas of diabetes, hormone action, physiology, islet cell biology or obesity for 2-3 months (receive a stipend).
- Weekly seminars about diabetes and obesity.
- Students present results at a national research symposium.
- Commencement dates and conclusion are flexible.

Application deadline for summer 2015: 11:59 pm CST January 12, 2015
