d. Activate alarms (where available) ONLY if you can do so safely and without detection.
e. Follow the robber(s) directions, but volunteer nothing more than you are asked.

f. Make no sudden moves. If you must put your hands into a pocket or if you must make any other moves, explain the action before doing it.

g. If the robber hands you a note, drop it on the floor or place it out of sight to retain as evidence.

h. Study the robber(s) as carefully as possible without being obvious. Note height, weight, race, age, clothing, jewelry, sex, speech characteristics, scars, tattoos, unique characteristics, gait, and method of operation.

i. Note the number of accomplices and where they stood. Try to make the same observations of each as in Section 2.h. Pay special attention to the way the robbers address each other. Under stress, they may use real names.

j. Note the type of weapon used by the robber and where it was carried, or if a weapon was mentioned (or indicated) and not shown.

k. Note the direction in which the robber(s) departed and how the money was carried away (sack, bank bag, etc.).

l. Try to remember exactly what the robber(s) said.

m. REMEMBER THAT MONEY OR EQUIPMENT CAN BE RECOVERED OR REPLACED - A LIFE CANNOT.

3. Procedure After a Robbery.

b. The person who actually dealt with the robber(s) should be near the person who is to telephone the police to assist in answering any questions asked by the police.

c. As soon as the robbery has been reported to the police, lock all doors, ask all witnesses to remain and allow no one to enter until officers arrive.
