

Dear Dr. Hood,

My name is Liza García, and I am an incoming medical student from Weslaco, Texas. I'm what people call a non-traditional student so the transition was a very complex thing for me. I did business for nearly 10 years and coming into medical school I had to sacrifice plenty to be here. Your generous donation and support of the School of Medicine Stethoscopes for Students allowed me to receive a TTUHSC branded stethoscope this year as well as begin my journey to my forever in helping patients and showing my siblings that this journey is possible. Thank you again for all your support and in essence encouragement.

*Sincerely,
Liza García*
