

Dear Dr. Melott,

*I want to thank you for sponsoring my stethoscope. My name is Alexander Ha, and I am an incoming medical student from Odessa, Texas. Receiving a stethoscope is an honor in itself as it signifies the start of a journey in medicine and it is a sign of trust given by the faculty and school. To receive a stethoscope that is donated by distinguished alumni is an even greater honor. Being able to show the stethoscope to my family and sharing that moment with them is a moment that I will cherish forever and I thank you for making that possible. Your generosity to the School of Medicine Stethoscopes for Students is greatly appreciated.*

*Sincerely,  
Alexander Ha*
