

**TEXAS TECH UNIVERISTY**  
**HEALTH SCIENCES CENTER**  
Graduate School of Biomedical Sciences

**Guidelines and Requirements for Graduate Students**  
**Molecular Biophysics (MBP)**

I. Program of Study

The Molecular Biophysics (MBP) concentration offers a doctoral degree (PhD) in Biomedical Sciences. At the time of admission into the PhD program, all students are subject to the requirements listed in the Texas Tech University Health Sciences Center Student Handbook (Code of Professional and Academic Conduct), the Graduate School of Biomedical Sciences Catalog, as well as the guidelines given below.

II. Program

A. Prerequisites for Admission into the MBP Concentration:

- All students admitted into the GSBS PhD program are considered “Undeclared” and are required to take all the GSBS Core Curriculum courses in the Fall and complete all GSBS IPE requirements ([https://www.ttuhsu.edu/interprofessional-education/core\\_curriculum.aspx](https://www.ttuhsu.edu/interprofessional-education/core_curriculum.aspx))
- All Undeclared students are required to complete three lab rotations prior to declaring a concentration and choosing a lab.

B. Program Curriculum

- Program Curriculum – *For more in depth description of the courses, please see the GSBS Catalog* <https://app4.ttuhsu.edu/CourseCatalog/default/Graduate-School-of-Biomedical-Sciences/2020%20-%202021/PhD-in-Biomedical-Sciences>
- Following completion of the Fall Core Curriculum, in the Spring Semester, students must take the required MBP courses. The mentor and committee can require the student to take additional courses as deemed necessary. The Graduate Seminar course is mandatory for all concentration students. It must be taken each Fall and each Spring semester. All Department (MBP) seminars are mandatory.
- A minimum of 72 hours (48 Didactic, 12 Research, and 12 Dissertation) of graduate course work are required for the PhD in Molecular Biophysics including:
  - Core courses I(GSBS 5471) Core II (GSBS 5372), Core III, (GSBS 5373), Core IV (GSBS 5174), Core V (GSBS 5275)
  - Lab Rotations (GSBS 5098)
  - Responsible Conduct of Research (GSBS 5101)
  - Seminar (GMBP 7101)
  - Readings (GMBP 7102)
  - Biochemistry and Biophysics of Membranes (GMBP 5321)
  - Additional electives that will be used to reach the 48 didactic hours may include, but are not limited to:
    - Experimental Biochemistry and Biophysics of Membranes (GMBP 5221)

- Advanced Cell Biology (GBCM 6320)
  - Advanced Protein Biochemistry (GBCM 6333)
  - Biology of Cancer (GBTC 5340), Human Physiology (GMBP 5302)
  - Advanced Topics in MBP (GMBP 6105, 6205, 6305)
  - Introduction to Biostatistics (GSPH 5311)
  - And other TTUHSC GSBS and TTU Courses.
- Per GSBS requirements, all MBP students must have published an original peer-reviewed first author research publication prior to scheduling their defense. The manuscript must be in a peer-reviewed journal that is indexed by PubMed or Web of Science. Please see the GSBS Catalog for any exceptions to this policy.

## Required Courses

Course Number	Course Name	Credit Hours
GSBS 5471	Core I: Molecules	4
GSBS 5372	Core II: Cells	3
GSBS 5373	Core III: Genes	3
GSBS 5174	Core IV: Biomedical Seminar	1
GSBS 5274	Core V: Laboratory Methods	2
	<b>Total</b>	<b>13</b>

Course Number	Course Name	Credit Hours
GSBS 5098	Techniques in Biomedical Research	6
GSBS 5101	Responsible Conduct of Research	1
GMBP 7101	Seminar	1
GMBP 7102	Readings	1
GMBP XXXX	Elective	3
	<b>Total</b>	<b>12</b>

Course Number	Course Name	Credit Hours
GSBS 5098	Techniques in Biomedical Research	6
	<b>Total</b>	<b>6</b>

Course Number	Course Name	Credit Hours
	Elective	3
GMBP 7000	Research	4
GMBP 7101	Seminar	1
GMBP 7102	Readings	1

	<b>Total</b>	<b>9</b>
--	--------------	----------

Course Number	Course Name	Credit Hours
GMBP 7000	Research	7
GMBP 7101	Seminar	1
GMBP 7102	Readings	1
	<b>Total</b>	<b>9</b>

C. Major Advisor and Advisory Committee

- In accordance to GSBS Policy the Advisory Committee shall be composed of at least four graduate faculty members (although at least five is preferable), with at least three members from the MBP concentration and at least one of the members from outside the concentration.
- The Advisory committee shall meet with the student at least once a year to monitor student progress and identify any problems within the concentration. Scheduling is the responsibility of the student and the mentor. The GSBS office and the graduate advisor will monitor the committee meetings.
- Committee meeting minutes will be detailed. Minutes will specifically note any problems and demands made by the committee and/or mentor along with a timeline for addressing these issues. Minutes must be filed with both the GSBS office and the MBP Department. Problems with students or their progress are expected to be documented in detail in the committee meeting minutes. Problems that cannot be resolved by the student, mentor and committee, will be resolved by a special meeting between the student, mentor, committee, graduate advisor and departmental chair.

D. Assessment Student Progress

- The student's mentor and advisory committee are responsible for overseeing the student's progress. They will make the most substantive contributions to, and the most important decisions regarding the student's academic career. The committee membership must include at least three MBP graduate faculty members and one outside faculty member, the rest may be either MBP members, members of other concentrations, or qualified individuals from TTU. Faculty members at other institutions may be members with the permission of both the mentor and the graduate advisor.
- Every year the student and their mentor(s) will meet with the GSBS Student Affairs Advocate to discuss student status and to address any questions or concerns the student may have.

E. Qualifying Exam

*For the detailed Qualifying Exam time line, please see the GSBS Course Catalog (on website located under "Doctoral Degree" section; on page 23 of 79 in the Full Catalog PDF version).*

<https://app4.ttuhs.edu/CourseCatalog/default/Graduate-School-of-Biomedical-Sciences/2020%20-%202021/General-Policies>

- The purpose of the Qualifying Examination is to ensure that students have mastered the fundamentals in a major area of interest, and they are adequately prepared to begin working full-time on doctoral research. The following policies and procedures apply to ALL current Biomedical Sciences Ph.D. students, regardless of which concentration they have chosen.
- A student is eligible to stand for this examination after receiving approval of the doctoral degree plan from the GSBS Office and completing most of the course work prescribed by the

approved plan. Students may take the Qualifying Examination as soon as they have completed core coursework, however, ***it must be completed by the end of the third year.***

- The qualifying exam shall be written in the NIH F30 (MD/PhD)/F31 (PhD) format. A complete application including all the forms (abstract, specific aims, research plan, biosketch, training plan, etc.)
- The oral exam should be presented as a typical public seminar (40-45 minutes) followed by an open Q&A discussion. This presentation will be followed by a closed-door committee examination.
- With the consent of the mentor and the student, the Advisory Committee will serve as the Qualifying Examination committee, with the exception that the Chair of the Committee will be elected by the committee members. The mentor is ineligible to be the Chair. The Examination Committee votes (pass/fail) on both the written and oral exam components. If a student receives more than one negative vote for one component, this will constitute failure of the respective exam component. The student may repeat each component only once.

7. Completion of the degree program:

- The MBP concentration will follow all GSBS policies and procedures. Additional details on the following are available in the GSBS catalog:  
<https://app4.ttuhsu.edu/CourseCatalog/default/Graduate-School-of-Biomedical-Sciences/2020%20-%202021/General-Policies>
- In addition to the GSBS grade policy, the concentration reserves the right to terminate any student that receives a failing grade in any course.

## Graduate Faculty of the Program

Graduate Advisor: Pablo Artigas, Ph.D.

<b>Full Membership</b>
Altenberg, Guillermo, M.D., Ph.D
Artigas, Pablo, Ph.D.
Cuello, Luis, Ph.D.
Guan, Lan, MD, Ph.D.
Jansen, Michaela, Pharm. D., Ph.D.
Liang, Hongjun, Ph.D.
Martinez-Zaguilan, Raul, Ph.D.
Pressley, Thomas A., Ph.D.
Sutton, Roger (Bryan), Ph.D.
<b>Associate Membership</b>
Blanton, Michael, P., Ph.D.
<b>Adjunct Membership</b>
Wylie, Benjamin J., Ph.D.
