

Vendormate Credentialing Program Update

This is an update to Texas Tech University Health Sciences Center’s Vendormate Credentialing program. TTUHSC has entered into an agreement with Vendormate, Inc. (“Vendormate”) to provide registration, education, screening and credentialing of health care vendors subject to [HSC OP 52.16 Health Care Vendor Interactions](#). Any health care vendors seeking access to TTUHSC facilities, clinics, faculty or residents shall register with Vendormate (new vendor registration <https://registersupplier.ghx.com/reg/network/vendor/>) before their visit and sign in and obtain a badge at the time of the visit.

Vendormate has added a new feature to its sign in process called “digital badging”. Digital badging allows vendors to generate a digital badge on their phone when they visit a clinic that does not have a physical Vendormate kiosk station. The digital badging function has been added to the following locations, and these locations will start using the digital badging system on **November 15, 2018**. This means if you plan to visit any of the clinics below, you will need to obtain a digital badge on your mobile devices and present this to our clinics.
