

NATIONAL SEXUAL ASSAULT AWARENESS MONTH

APRIL 2024

**Our Voices Have Power. Together, We
Can Build Safe and Respectful
Communities.**

Building Connected Communities is the 2024 campaign theme for Sexual Assault Awareness Month (SAAM). This month, let's work together to draw attention to the prevalence of sexual assault and educate ourselves and our campus communities about how to prevent it. Building Connected Communities helps us reduce the likelihood of sexual abuse, assault, and harassment in our communities. Any space where people come together is a community, whether in neighborhoods, workplaces, campuses, organizations, or even online spaces.

THIS MONTH:

We're asking you to join us in building connected communities that promote equity and respect, as our connections to one another have an impact more significant than just ourselves.
