

INTERNATIONAL MAIL

Most items may be mailed to foreign countries; however there are exceptions that vary by country. All mail going to foreign countries must be enclosed (except postcards). International mail **MUST** have the address printed in English. The postal code or delivery zone should be included on the line with the city name. All International mail 16 ounces or over must have the appropriate Customs Declaration attached or USPS will return package to sender. This includes APO/FPO military installations. Airmail delivery is usually delivered in 7-10 days. Faster service is available via USPS Global Priority or International Express. Delivery times are not guaranteed.
