Global Perspectives FILM SERIES

Manzanar, Diverted: When Water Becomes Dust

Thursday, November 9
12 - 1 PM on Zoom

At the foot of the majestic snow-capped Sierras, Manzanar, the WWII concentration camp, becomes the confluence for memories of Payahuunadu, the now-parched “land of flowing water.” Intergenerational women from Native American, Japanese American and rancher communities form an unexpected alliance to defend their land and water from Los Angeles.
