

Global Perspectives Film Series

Spring 2019

**Thursday
January 16
12:00p-1:00p
ACB 230**

Era of Megafires

The rise of highly destructive megafires (wildfires over 100,000 acres) has become one of today's most pressing and complex problems. Facing the reality of this issue can be nothing short of daunting. Through education, we can change the way fire comes to our forests and communities.

The Era of Megafires is a presentation that combines the research of Dr. Paul Hessburg with the award-winning visual storytelling of North 40 Productions. Designed to engage a wide-audience, the presented material comes in the form of fast-moving, topic-based talks interspersed with compelling video vignettes and animations.

**Free pizza will be provided to the first 30 attendees!
This event is free and open to the public.
No RSVP is required.**
