PUBLICATION POLICY

The programs, policies, statements, fees and courses contained in this document are subject to continuous review and evaluation. The Texas Tech University Health Sciences Center (TTUHSC) School of Health Professions reserves the right to make changes at any time without notice. This publication is therefore intended for informational purposes only. Matriculation information particular to the individual programs within the School of Health Professions is contained in departmental handbooks issued to admitted students upon enrollment. Students should consult these publications for detailed information regarding policies, procedures and resources.

EQUAL OPPORTUNITY STATEMENT

The School of Health Professions is committed to a policy of equal opportunity for all and will not discriminate on the basis of race, color, sex, age, religion, national origin, handicap or disability.

ADMISSION INQUIRIES

All inquiries concerning admission to the School of Health Professions should be addressed to:

CLINICAL LABORATORY SCIENCE

THE CLS PROFESSION

Clinical laboratory scientists perform a full range of laboratory tests, from simple screening tests to more complex procedures designed to uncover diseases like AIDS, diabetes and cancer. They also are responsible for confirming the accuracy of test results and reporting laboratory findings to the clinician.

PROGRAM FACTS

The Clinical Laboratory Science (CLS) program is a growing, dynamic program with world-class faculty and a state-of-the-art laboratory facility. The CLS program, a university-based 2+2 program, offers five optional areas of special emphasis.

- The **STANDARD OPTION** prepares a student for a career primarily in a clinical setting such as a hospital, physician’s office laboratory or a reference laboratory.
- The **PRE-MED OPTION** is for students pursuing a graduate medical education through medical school, osteopathic school, veterinary school or research graduate programs.
- The **PRE-PHYSICIAN ASSISTANT OPTION** is for students pursuing a graduate education in physician assistant studies.
- The **PRE-MOLECULAR PATHOLOGY OPTION** prepares students to matriculate into the one-year Master of Science in Molecular Pathology program for a career in molecular diagnosis of acquired, inherited and infectious diseases.
- The **PRE-HEALTHCARE ADMINISTRATION OPTION** prepares students to matriculate into the Master of Science in Healthcare Administration program for a career in management, human resources and industry.

The clinical experiences are structured to provide skill and practice in diagnostic techniques, quality assurances and interpreting and reporting patient results.

CLINICAL LABORATORY SCIENTISTS

- Analyze human blood, tissues and bodily fluids
- Supervise the performance of thousands of medical laboratory tests, which are conducted by using the latest in biomedical instruments

CLINICAL LABORATORY SCIENTISTS MAY SPECIALIZE IN

- Clinical Chemistry - chemical analysis of bodily fluids
- Immunohematology - blood banking
- Hematology - study of blood cells and coagulation
- Microbiology - isolation and identification of bacteria and viruses
- Immunology/Serology - study of the body’s defense system
- Urinalysis and body fluids

CLINICAL LABORATORY SCIENTISTS WORK IN

- Hospital laboratories
- Independent laboratories
- Reference laboratories
- Clinics
- Health maintenance organizations (HMOs)
- Higher education
- Public health agencies
- Pharmaceutical firms
- Research institutions
- Scientific equipment companies
- Blood donor centers
- Physician’s offices
- Research, teaching or administration
PREREQUISITE COURSES

*STANDARD OPTION PREREQUISITES
College Algebra or higher (including Pre-Calculus) 3 hours
English I & II 6 hours
History I & II 6 hours
Political Science (or Government) I & II 6 hours
Social Behavioral Science 3 hours
Language, Philosophy & Culture 3 hours
Creative Arts 3 hours
Chemistry I & II with lab 8 hours
Biology (or Anatomy and Physiology) I & II with lab 8 hours
Introduction to Organic Chemistry or Organic Chemistry I with lab 4 hours
Microbiology with lab 4 hours
Natural Science Elective 3-4 hours
(Chemistry recommended)

**PRE-MED OPTION REQUIRES STANDARD PREREQUISITES
PLUS THE FOLLOWING:
Organic Chemistry II 4 hours
Physics I & II 8 hours
Calculus I or Statistics 3 hours
Biochemistry 4 hours
(Must verify with medical school of choosing as prerequisites vary per school)

**PRE-PHYSICIAN ASSISTANT OPTION REQUIRES STANDARD PREREQUISITES
PLUS THE FOLLOWING:
Organic Chemistry or Biochemistry 4 hours
Anatomy & Physiology 8 hours
Genetics 4 hours
Psychology 3 hours
(Must verify with PA school of choosing as prerequisites vary per school)

PREREQUISITE COURSES

Courses must be completed with a “C” or above to be considered for prerequisite credit.

Biological Sciences with lab 12 hours
Basic Chemistry with lab 8 hours
Introduction to Organic Chemistry with lab 4 hours
or Organic Chemistry I with lab 4 hours
Microbiology with lab 4 hours
Statistics 3 hours

RECOMMENDED COURSES:
Anatomy and Physiology I & II, Biology I & II, Cell Biology, Genetics, Immunology and upper division Microbiology

Complete verified application through Allied Health Central Application System (AHCAS) and School of Health Professions supplemental application at www.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/APPLICATION.ASPX

DEGREE REQUIREMENTS

Texas Common Core requirements 30 hours
Science prerequisite courses* ≥ 27 hours
CLS Traditional Program curriculum 74 hours

* These hours may be included as part of Texas Common Core

ADMISSION REQUIREMENTS

Completion of 30 credit hours of Texas Common Core requirements prior to matriculation
Complete and verified application through Allied Health Central Application System (AHCAS) and School of Health Professions supplemental application at www.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/APPLICATION.ASPX
Completion of 27 credit hours of standard science prerequisites prior to matriculation
Minimum overall GPA of 2.5 on a 4.0 scale
Minimum science GPA of 2.5 on a 4.0 scale

DEGREE REQUIREMENTS

Earned Bachelor’s Degree ≥120 hours
Texas Common Core requirements 42 hours
Science prerequisite courses* 31 hours
Post-Baccalaureate Certificate and Second Degree Bachelor of Science curriculum 35 hours

* These hours may be included as part of Texas Common Core

PROGRAM FACTS

12-month online Second Degree Bachelor of Science or Post-Baccalaureate Certificate in Clinical Laboratory Science for students who have completed a four-year science degree from an accredited university.
Didactic material is delivered online and laboratory sessions are conducted via one six-day session each fall and spring semester.
Candidates must have an overall 2.5 GPA and a 2.5 science GPA based upon a 4.0 scale.
Students who complete requirements for the certificate are eligible to sit for the national certification examination through the American Society of Clinical Pathology Board of Certification Registry.
Second Degree Bachelor of Science in CLS applicants must have a bachelor’s degree to include Texas Common Core completion.

second degree in CLS + post-baccalaureate certificate in CLS
master of science in
MOLECULAR PATHOLOGY

THE MP PROFESSION
The diagnostic molecular scientist is qualified by an academic and applied education to provide service in the molecular diagnosis of human genetic diseases (inherited), cancer/oncology (acquired) and infectious diseases (bacteriology/virology). The goal of molecular diagnostics is to enhance the value of clinical laboratory services by utilizing advanced molecular techniques of DNA/RNA testing to analyze individual genes or mutations. These molecular techniques also are used in the fields of forensics (human identification) and personalized medicine/pharmacogenomics. Diagnostic molecular scientists are in high-demand in the workplace and play an important role in health care. Currently, there is a shortage of qualified people available to work in molecular diagnostic laboratories.

OUR PROGRAM
The Molecular Pathology (MP) program is unique because it provides students with an entryway into a clinical career path that is not possible with only a basic science degree.

PROGRAM FACTS
Designed for students who want a strong clinical background in human genetic testing.

- 12-month lock-step program starts in the summer and includes 39 didactic credit hours and an 8-week clinical experience
- The clinical experiences are structured to provide skill and practice in diagnostic techniques, quality assurance and interpreting and reporting patient results
- State-of-the-art molecular diagnostic laboratory
- Complex gene-testing instruments available with space and equipment for DNA and RNA isolation, PCR, real-time PCR and DNA sequencing
- GRE not required
- Excellent preparation and résumé-building for medical school and other clinical programs
- Early application is encouraged

Upon successful completion of the one-year program graduates are eligible to take the national certification exam in molecular biology through the American Society for Clinical Pathology Board of Certification (ASCP BOC). Once certified graduates have the credential: Technologist in Molecular Biology, MB (ASCP).

MOLECULAR PATHOLOGY SCOPE OF PRACTICE
- Genetic testing
- Infectious disease
- Oncology
- Carrier screening
- Human identity testing and forensics
- Public health
- Animal science
- Agriculture
- Biotechnology
- Research and development
- Personalized medicine

CURRENT MOLECULAR PATHOLOGY TECHNOLOGY
- DNA and RNA isolation
- Polymerase Chain Reaction (PCR)
- Real-Time PCR
- Digital PCR
- Gene Expression
- Sequencing
- Restriction Fragment Length Polymorphism Analysis
- Electrophoresis
- Next-generation sequencing
- Pyrosequencing
- Automated technology
- High-resolution melt curve
- Microarray

ADMISSION REQUIREMENTS
- Bachelor’s degree in science
- A minimum cumulative and prerequisite GPA of 2.75 on a 4.0 scale
- Verified application through Allied Health Central Application System (AHCAS) and School of Health Professions supplemental application at WWW.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/APPLICATION.ASPX
- The following prerequisites courses:

WHY CHOOSE MOLECULAR PATHOLOGY?
There are many reasons students choose the TTUHSC MP program. For many, microbiology was one of their favorite undergraduate classes. A scientist in a molecular pathology laboratory might diagnose antibiotic-resistant infections or identify unknown microorganisms. Others may have a family member or friend affected by cancer and want to make a difference in patient care in oncology. A molecular pathology technologist can perform genetic tests to predict the best treatment for cancer patients. Some students want research experience. A diagnostic molecular scientist can design new laboratory tests to improve health care or help discover genetic mutations that cause inherited diseases. Other students are planning for medical school in the future. The MP program will prepare such students for medical school or other professional degrees by developing advanced knowledge and skills that will make them better health care providers. Finally, there are students interested in using their science degree to help people and have a fulfilling and stable career without many more years of school. The MP program prepares students for real-world clinical genetic laboratory careers making them job ready and eligible for board certification in molecular pathology in just one year.

WHAT TO EXPECT IN THE MOLECULAR PATHOLOGY PROGRAM?
Skills are taught in a progressive manner, allowing students with no prior clinical or laboratory training to succeed. Each cohort of students begins in the summer with core classes such as cell biology, statistics and entry-level laboratory skill development. In the fall semester, students take classes in human genetics, pathophysiology and molecular laboratory methods and have introductory experiences in scientific literature research, technical writing and hands-on DNA sequencing design. Once students move into the spring semester, they are able to perform independently many molecular laboratory techniques and are further challenged with designing a new diagnostic test. With this experience, students then spend eight weeks on a clinical preceptorship (internship) in a full-service clinical molecular pathology laboratory. Upon completion of the program, MP graduates are qualified to work in hospital and research laboratories, performing complex molecular tests. Those who pursue medical or other professional disciplines have unique knowledge and skills to offer advanced patient care.
master of
PHYSICIAN ASSISTANT STUDIES

THE PA PROFESSION

The Master of Physician Assistant (PA) Studies program prepares students for a career in one of the fastest growing and rewarding health care fields. PAs are educated through academic and clinical training as medical providers who are licensed to practice medicine as part of the health care team. PAs can:

- Take medical histories
- Perform physical examinations
- Order and interpret diagnostic tests
- Diagnose and treat illnesses
- Write prescriptions
- Counsel patients on preventive care
- Assist in surgery

A PA exercises considerable autonomy in medical decision making, but the supervising physician and state law determine the scope of the PA’s practice. PAs deliver health care to diverse patients of all ages and within a variety of medical settings.

PROGRAM FACTS

MISSION

The mission of the TTUHSC School of Health Professions Master of PA Studies is to provide comprehensive medical education to physician assistant students. Through an environment of academic excellence and the promotion of lifelong learning and professionalism, graduates will be prepared to practice patient-centered primary care, increasing access to healthcare for communities of West Texas and beyond.

DURATION

The program awards a Master of PA Studies degree following 27 months of intensive academic and clinical training that includes a 15-month academic phase conducted in Midland, Texas, and a 12-month clinical experience conducted at various sites throughout Texas.

LOCATION

The TTUHSC PA program is located in Midland, Texas, on the Midland College campus.

ACCREDITATION

The Accreditation Review Commission on Education for the Physician Assistant (ARC-PA) has granted Accreditation-Continued status to the TTUHSC Physician Assistant program sponsored by TTUHSC. Accreditation-Continued is an accreditation status granted when a currently accredited program is in compliance with the ARC-PA standards. Accreditation remains in effect until the program closes or withdraws from the accreditation process, or until accreditation is withdrawn for failure to comply with ARC-PA standards. The approximate date for the next validation review of the program by the ARC-PA will be March 2023. The review date is contingent upon continued compliance with the accreditation standards and ARC-PA policy.

HOW IS MY GPA CALCULATED?

The GPA as calculated by CASPA is utilized. Therefore, the GPA used for application screening will be calculated based upon the courses completed at the time the CASPA application is completed. Prerequisite course completion and overall GPA will be confirmed prior to matriculation.

ADMISSION REQUIREMENTS

- Bachelor’s degree
- Official GRE scores (Code: 3652)
- A minimum overall and science GPA of 3.0 on a 4.0 scale is required. The CASPA-calculated GPA will be utilized.
- Completed (or plan to complete) prerequisite course work (see table) with grade of “C” or higher.
- Applicants with more than 9 hours of prerequisite courses in progress will not be reviewed.
- CASPA application with three letters of recommendation
- A.P. and CLEP credit will not be accepted for any prerequisite science courses.
- All required science courses must be intended for science majors. Prerequisite courses must be taken at a regionally accredited U.S. or Canadian college or university. Transfer credit from a school outside the U.S. or Canada will not apply to the required prerequisite courses. Prerequisite courses completed during the last seven years are preferred.
- Completion of TTUHSC School of Health Professions supplemental application

THE SLHS PROFESSION
Improving the communication skills of people with developmental or acquired communication disorders is a noble profession. Graduates of this undergraduate program can obtain a job in a variety of fields (e.g., speech-language pathology assistant, hearing aid dispenser, early intervention specialist, child care provider, activities director or case worker). Graduates can pursue advanced education in fields such as speech-language pathology, audiology, education or health care administration.

OUR PROGRAM
• Undergraduate curriculum provides courses in both speech-language pathology and audiology
• Graduate degree required to practice as a speech-language pathologist or audiologist

SPECIALIZATIONS
Upon completion of the Bachelor of Science in Speech, Language, and Hearing Sciences (SLHS), students may specialize in:
• Related fields (e.g., counseling, education, early intervention)
• Speech-Language Pathology (master’s degree)
• Audiology (clinical doctorate)

ADMISSION REQUIREMENTS
• A completion of online application
• Minimum 2.5 cumulative and prerequisite GPA

DEGREE REQUIREMENTS
Texas Common Core requirements ≥ 42 hours
Additional prerequisite courses ≥ 21 hours
American Speech-Language-Hearing Association requirements* 12-14 hours
SLHS Traditional B.S. program* ≥ 59 hours
* These hours may be included as part of Texas Common Core

PREREQUISITE COURSES
TEXAS COMMON CORE REQUIREMENTS
English Composition I & II 6 hours
College Algebra or Higher 3 hours
Life Science: Biology of Animals, Human Anatomy & Physiology or Genetics 3-4 hours
Physical Science: Physics or Chemistry 3-4 hours
Language, Philosophy & Culture 3 hours
Creative Arts 3 hours
Social & Behavioral Science 3 hours
American History 6 hours
Political Science/Government Component Area 6 hours
TOTAL 42 hours

ADDITIONAL PREREQUISITE COURSES
Technical Writing 3 hours
Statistics 3 hours
Social & Behavioral Science 3 hours
+COMS 2350 Introduction to Communication Disorders 3 hours
Multicultural 3 hours
General Electives Variable hours
TOTAL 21 hours
MINIMUM TOTAL 63 hours
*Recommended (but not required) Texas Tech University course
PROGRAM FACTS
• 12-month second degree for students who already have earned a bachelor degree.
• Upon completion of this degree, individuals will meet all requirements for becoming a licensed speech-language pathology assistant or can apply to a graduate program in speech-language pathology or audiology.

ADMISSION REQUIREMENTS
• A completed online application
• Minimum cumulative GPA of 3.0 based upon a 4.0 scale.

PREREQUISITE COURSES
Qualified applicants will have earned a bachelor’s degree and completed the Texas Common Core curriculum as well as four undergraduate-level courses required by the American Speech-Language-Hearing Association (ASHA) in the following subject areas:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>

DEGREE REQUIREMENTS
Earned Bachelor’s Degree ≥ 120 hours
Texas Common Core requirements* 42 hours
American Speech-Language-Hearing Association requirements* 12-14 hours
Second Degree B.S. in SLHS Program 35 hours

* These hours may be included as part of initial bachelor’s degree or may be additional courses
DYNAMIC EXCELLENCE

Assistance Intervention
master of science in
SPEECH-LANGUAGE PATHOLOGY

THE SLP PROFESSION

Speech-language pathologists (SLPs)
• Help those who stutter to increase fluency
• Assist with correct voice production
• Treat people who have experienced a stroke or brain trauma to regain language, speech and swallowing ability
• Work with children to improve their language skills, and thus, their academic performance
• Help individuals to use augmentative and assistive systems of communication
• Counsel individuals and families to better cope with speech and language disorders
• Advise individuals and the community on how to prevent speech and language disorders

OUR PROGRAM

The course schedule is designed so that each class of graduate students moves through the course sequence at the same time. On average, a graduate student can expect to accumulate:
• 25-50 American Speech-Language-Hearing Association (ASHA) hours per semester when assigned to the Speech-Language & Hearing Clinic
• 80 hours per semester at externship locations including:
  ✷ Public schools
  ✷ Hospitals
  ✷ Early childhood intervention programs
  ✷ Rehabilitation facilities
  ✷ Home health agencies

OUT-OF-FIELD OPTIONS

If you have a bachelor’s degree in a field other than communication disorders or speech, language, and hearing sciences, there are two ways in which you may begin work on the master’s degree:
• Apply and be accepted into the two-year Speech, Language, and Hearing Sciences undergraduate program at TTUHSC or any other undergraduate program in the nation. Upon completion of the undergraduate program, apply and be accepted to the TTUHSC master’s program.
• Apply and be accepted into the one-year second degree program at TTUHSC. Enrollment in courses as a second degree student does not guarantee the student will be accepted for graduate study. The student must apply for the graduate program after completing the first semester of course work.

QUICK FACTS

• More than 59 percent of certified SLPs work in education
• 35 percent are employed in health care facilities
• More than 13 percent are employed in non-residential health care facilities
• The SLP profession is expected to grow faster than average through the year 2020

Facts were obtained from the American Speech-Language-Hearing Association.

VARIABLE WORK SETTINGS

• Public or private schools
• Hospitals
• Rehabilitation centers
• Short-term and long-term nursing care facilities
• Community clinics
• Colleges and universities
• Private practice offices
• State and local health departments
• State and federal government agencies
• Home health agencies
• Adult day care centers
• Research laboratories

ADMISSION REQUIREMENTS

Admission to the SLP program is competitive. The requirements listed below should be met to be eligible for admission consideration to the SLP program:
• Completion of the Communication Sciences and Disorders Centralized Application Service (CSDCAS) application and the TTUHSC School of Health Professions supplemental application. (www.ttuhscedu/health-professions/admissions/application.aspx)
• A minimum cumulative GPA of 3.0 on a 4.0 scale
• A minimum GPA of 3.0 on a 4.0 scale in undergraduate audiology and speech pathology courses
• Demonstration of superior oral and written communication skills
• Completion of an interview with the admissions committee
• Above-average scores on the verbal, quantitative and analytical subtests of the Graduate Record Examination (GRE)
• Proof of appropriate immunizations against infectious diseases
• An earned baccalaureate degree or its equivalent in the area of speech, language, and hearing sciences from an accredited institution
THE AU.D. PROFESSION
Audiologists assess and treat individuals who are challenged by hearing or balance problems. Audiologists:
- Measure the hearing ability and balance function of adults and children
- Provide aural rehabilitation, including counseling about handling communication situations at home, work and school to reduce the effects of hearing loss
- Assess and fit amplification devices and instruct in their care
- Administer and interpret screening, assessment and diagnostic procedures
- Serve as consultants to government and industry on environmental and noise-induced hearing loss
- Initiate hearing conservation programs in industry and the public to prevent hearing loss from noise exposure
- Initiate clinical and basic research related to hearing and balance

OUR PROGRAM
- Our program features several well-equipped laboratories
- Faculty are recognized for their work in vestibular issues, electrophysiology, cochlear implants, pediatric audiology, unilateral hearing loss, selective auditory attention and noise-induced hearing loss
- During academic and clinical preparation, students are encouraged to participate alongside faculty as they search for tomorrow’s solutions for today’s problems
- Small student-to-faculty ratio allows students to be involved in the process of discovery and learning

To be awarded the Doctor of Audiology (Au.D.) degree, students must successfully complete all course work and clinical practicum requirements of the TTUHSC Department of Speech, Language, and Hearing Sciences. This includes:
- Approximately 70 hours of course work
- Extensive clinical practice throughout the program
- Clinically oriented research project

ADMISSION REQUIREMENTS
Admission to the Au.D. program is competitive. The requirements listed below should be met to be eligible for admission consideration to the Au.D. program:
- Completion of the Communication Sciences and Disorders Centralized Application Service (CSDCAS) application and the TTUHSC School of Health Professions supplemental application at www.ttuhs.edu/health-professions/admissions/application.aspx
- A bachelor’s degree in speech, language, and hearing sciences or a related field
- A minimum cumulative and major GPA of 3.0 on a 4.0 scale
- Submission of GRE test scores (including verbal, quantitative and analytical writing sections)
- Submission of two letters of recommendation
- Proof of appropriate immunizations against infectious diseases
- TOEFL or IELTS scores if English is the second language

THE AT PROFESSION
As defined by the Athletic Training Strategic Alliance, athletic trainers are “health care professionals who render service or treatment, under the direction of or in collaboration with a physician, in accordance with their education and training and the states’ statutes, rules and regulations. As a part of the health care team, services provided by ATs include injury and illness prevention, wellness promotion and education, emergent care, examination and clinical diagnosis, therapeutic intervention, and rehabilitation of injuries and medical conditions.” (www.nata.org/about/athletic-training/athletic-training-glossary)

OUR PROGRAM
• Two-year, 60-credit hour entry-level program
• Combines didactic and clinical education
• The clinical component consists of four athletic training clinical experiences integrating classroom and laboratory skills in real world application
• Clinical settings include secondary schools, colleges, clinics and physicians’ offices

Upon graduation from the Master of Athletic Training (MAT) program, students will be eligible to sit for the Board of Certification, Inc. (BOC) examination and apply for applicable state credentials. Credentialing requirements for athletic training vary from state to state according to athletic training practice acts and state regulations that govern athletic training. A misdemeanor or felony conviction may affect a student’s ability to complete clinical experiences and sit for the BOC examination or attain state licensure.

CAREER OPPORTUNITIES FOR ATHLETIC TRAINERS
• College/university athletic departments
• Secondary school systems
• Professional sports
• Sports medicine clinics
• Physicians’ offices
• Corporate/industrial settings
• Health clubs
• Athletic training programs
• Military
• Performing arts

*One course to include descriptive statistics, correlation, and introduction to inferential statistics or research design

ADMISSION REQUIREMENTS

The following information is required prior to enrollment in the MAT program:
• Two letters of recommendation
• An essay
• Verification of completed athletic training observation hours post-high school (minimum of 50 hours completed with a credentialed athletic trainer)
• A cumulative and prerequisite GPA of 2.7 on a 4.0 scale
• Completion or plan to complete all prerequisite course work prior to starting the MAT program
• “C” or better in all prerequisite course work
• Degree awarded, or plan to complete a degree from an accredited college or university
• Verified application through the Athletic Training Central Application System (ATCAS) and a School of Health Professions supplemental application. (WWW.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/APPLICATION.ASPX)
ADDITIONAL REQUIREMENTS

All students admitted to the TTUHSC MAT program:

- Are required to have a laptop computer (minimum specifications are available in the School of Health Professions catalog)
- Must submit verification of all required immunizations (a complete list is available in the School of Health Professions catalog)
- Must submit a completed Essential Function/Technical Standards form (a complete list is available in the School of Health Professions catalog)

Fulfilling the basic admissions requirements does not guarantee admission. Acceptance into the MAT program is based upon a holistic scoring system that includes grade point average (cumulative and prerequisite courses), completion of all prerequisite courses, athletic training observation/experience, essay, letters of recommendation and interview scores. The deadline for the receipt of the application, supporting documentation and application fee is February 1. The application must be verified by ATCAS, and the TTUHSC School of Health Professions supplemental application must be complete.

Please note: It takes some time for applications submitted to ATCAS to be verified. Applicants will need to plan accordingly. It is in the best interest of the applicant to apply as early as possible.
THE OT PROFESSION

Occupational therapy is a challenging profession that calls on the therapist to use clinical reasoning and creative abilities to meet the unique needs of clients. Occupational therapists work collaboratively with individuals, families and caregivers. An occupational therapist may help a child with autism participate fully in school and social situations, help a person recover from hand injury, help a person with mental illness manage a daily medication routine or provide supports for an older adult who experiences physical and cognitive changes following a stroke.

OUR PROGRAM

The Master of Occupational Therapy (MOT) program is a lockstep, full-time program that takes 2.5 years to complete. It is an 88-credit hour program, including 24 credit hours of clinical fieldwork. The program prepares the student to enter the occupational therapy field with a background in fundamental concepts, clinical reasoning, theoretical foundations, research methods, occupational therapy processes and professional practice.

Students who successfully complete the curriculum will receive a master’s degree in occupational therapy. Program graduates are eligible to take the National Certification Examination for the Occupational Therapist administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be an Occupational Therapist, Registered (OTR). A felony conviction may affect a graduate’s ability to sit for the NBCOT Certification Examination or attain state licensure. Licensure requirements for occupational therapists vary by state according to practice act and state regulations that govern the practice of occupational therapy.

THE OCCUPATIONAL THERAPIST

- Assesses the individual’s physical, cognitive and psychosocial abilities to identify strengths and limitations that affect daily function.
- Evaluates the environmental aspects (e.g., social, physical, cultural) that may impact an individual’s performance of daily activities.
- Establishes an intervention plan based on evaluation results and aims to improve the individual’s ability to meet the demands of work, home and community environments.
- Uses skills unique to occupational therapists that include: analysis of the components of daily activities (i.e., activity analysis); incorporation of everyday activities into therapeutic intervention; development and construction of assistive devices; and adaptation of tasks and environments to support performance.

OCCUPATIONAL THERAPY PRACTICE AREAS AND SETTINGS

- Acute care
- Assistive technology
- Burn centers
- Case management
- Community health practice
- Driver rehabilitation
- Early intervention services
- Ergonomics consultation
- Hand rehabilitation
- Health and wellness consultation
- Home health
- Home modifications access
- Hospice services
- Hospitals
- Low vision services
- Nursing homes
- Private practice
- Psychiatric hospitals
- Psychosocial needs of youth
- Rehabilitation centers (inpatient and outpatient)
- Schools
- State-supported living centers

ADMISSION REQUIREMENTS

The following requirements should be met to be eligible for admission to the MOT program:

- Verified application through the Occupational Therapy Central Application System (OTCAS) and a School of Health Professions supplemental application. Go to: WWW.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/APPLICATION.ASPX
- A bachelor’s degree from an accredited institution
- Documented observation hours of experience with a licensed occupational therapist (minimum of 40 hours)
- A minimum cumulative GPA of 3.0 on a 4.0 scale and a minimum science prerequisite GPA of 3.0 on a 4.0 scale
- Obtain three letters of recommendation submitted through OTCAS
- No more than nine hours of prerequisites in progress and at least two science prerequisites must be completed
- A.P. and CLEP credit will not be accepted for any science prerequisite course.
- There is no advanced placement, transfer of credit or experiential learning credit within the MOT program.
- Acceptance into the program is based upon competitive GPAs, completion of all prerequisite courses, observation hours (documentation is required), essays, letters of recommendation (one letter must be from an occupational therapist) and interview.
- Applications must be verified by November 15. It is in the applicant’s best interest to apply as early as possible (see page 52-53 for complete application instructions and deadlines).
- The MOT admissions committee reviews all completed applications. Competitive applicants are interviewed on-site during the fall or spring semester. Submitting an application does not guarantee an interview.
- Acceptance into the program is based upon competitive GPAs, completion of all prerequisite courses, observation hours (documentation is required), essays, letters of recommendation (one letter must be from an occupational therapist) and interview.
- Applications must be verified by November 15. It is in the applicant’s best interest to apply as early as possible (see page 52-53 for complete application instructions and deadlines).
- The MOT admissions committee reviews all completed applications. Competitive applicants are interviewed on-site during the fall or spring semester. Submitting an application does not guarantee an interview.

*This program does not require the GRE.

IMPORTANT: Applicants need to be aware that the OT program is in the process of transitioning the entry-level MOT program to an entry-level Doctor of Occupational Therapy (OTD) program. The program must be granted Candidacy Status by the Accreditation Council for Occupational Therapy Education before students can be admitted to the entry-level OTD program. Applicants who apply to the OT program during this transitional period will be admitted to either the entry-level MOT or OTD program depending on when Candidacy Status is granted. Check the TTUHSC OT program webpage for updates about the status of the OTD program.
The Occupational Therapy (OT) program is in the process of transitioning to the doctoral level. In 2018, the TTUHSC entry-level occupational therapy doctoral degree program applied for accreditation by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA). The program must be granted Candidacy Status before students can be admitted to the entry-level Doctor of Occupational Therapy (OTD) program. The accreditation for the MOT program will continue until the transition to the entry-level OTD program is fully accredited.

OUR PROGRAM

The OTD program is a lockstep, full-time program that takes 3 years to complete. It is a 100-credit hour program, including 24 credit hours of clinical fieldwork and 15 hours of doctoral capstone work.

The program prepares the student to enter the occupational therapy field with a background in dynamics of occupation, critical reasoning, practice skills and professionalism necessary for occupational therapy practice.

The program must be granted Candidacy Status, have a pre-accreditation review, complete an on-site evaluation, and be granted Accreditation Status before its graduates will be eligible to take the National Certification Examination for the Occupational Therapist administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be an Occupational Therapist, Registered (OTR). A felony conviction may affect a graduate’s ability to sit for the NBCOT Certification Examination or attain state licensure. Licensure requirements for occupational therapists vary by state according to practice act and state regulations that govern the practice of occupational therapy.

For further information about the accreditation process contact:
American Occupational Therapy Association Accreditation Department
4720 Montgomery Lane, Suite 200
Bethesda, MD 20814-3449
Telephone: (301) 652-2682 | WWW.ACOTEONLINE.ORG

Check the TTUHSC OT program webpage for updates about the status of the OTD program.

THE OCCUPATIONAL THERAPIST

- Assesses the individual’s physical, cognitive and psychosocial abilities to identify strengths and limitations that affect daily function.
- Evaluates the environmental aspects (e.g., social, physical, cultural) that may impact an individual’s performance of daily activities.
- Establishes an intervention plan based on evaluation results and aims to improve the individual’s ability to meet the demands of work, home and community environments.
- Uses skills unique to occupational therapists that include: analysis of the components of daily activities (i.e., activity analysis); incorporation of everyday activities into therapeutic intervention; development and construction of assistive devices; and adaptation of tasks and environments to support performance.

- A.P. and CLEP credit will not be accepted for any science prerequisite course.
- There is no advanced placement, transfer of credit or experiential learning credit within the entry-level OTD program.
- Acceptance into the program is based upon competitive GPAs, completion of all prerequisite courses, observation hours (documentation is required), essay, letters of recommendation (one letter must be from an occupational therapist) and interview.
- Applications must be verified by November 15. It is in the applicant’s best interest to apply as early as possible (see page 52-53 for complete application instructions and deadlines).
- The entry-level OTD admissions committee reviews all completed applications. Competitive applicants are interviewed on-site during the fall or spring semester. Submitting an application does not guarantee an interview.

*This program does not require the GRE.
The Post-Professional Doctor of Occupational Therapy (OTD) program is designed for licensed occupational therapists who possess a bachelor’s or master’s degree in occupational therapy. The Post-Professional OTD provides these licensed occupational therapists an opportunity to elevate their professional degree to the doctoral level. The Post-Professional OTD is designed for licensed occupational therapist who would like to keep up with trends in the profession, as well as, enhance their skills and career opportunities by earning a clinical doctoral degree.

The Accreditation Council for Occupational Therapy Education does not offer accreditation for the Post-Professional OTD program or other post-professional programs in occupational therapy.

OTD PROGRAM CURRICULUM OUTLINED:
• The Post-Professional OTD program will require the completion of 33 semester credit hours for licensed occupational therapists with a bachelor’s degree and 27 semester credit hours for licensed occupational therapists with a master’s degree.
• All core courses are taught online (elective courses may require weekend on-site visits to Lubbock).
• All students are required to take the five core courses and two Capstone courses.
• Students with a master’s degree in occupational therapy will choose two electives. Students with a bachelor’s degree in occupational therapy will choose four electives.
• Most courses will be taught once per academic year to facilitate completion of the curriculum.
• Students are required to successfully complete at least two courses within each academic year.
• Each student’s degree plan is flexible. Most students should complete the curriculum in two years, and it is expected that all course work will be completed in no more than five years.
• Students may begin the curriculum in the spring, summer or fall semester.
• The application deadlines are November 1 for the spring semester, April 1 for the summer semester, and July 1 for the fall semester. The Post-Professional OTD will begin accepting applications following regional accreditation approval. Check the TTUHSC OT program webpage for up to date information.

ADMISSION REQUIREMENTS
The following requirements must be met to be eligible for admission to the Post-Professional OTD program:
• License to practice occupational therapy within the U.S. with documentation to be submitted with application
• Applicants must have a minimum of one year of clinical practice in the United States as a licensed occupational therapist
• Either a bachelor’s or master’s degree in occupational therapy
• All official college transcripts, including undergraduate, occupational therapy program, graduate and any other university course work

• A minimum 3.0 GPA on a 4.0 scale
• At least one supporting letter of recommendation from a current or former employer or a professional colleague in the field of occupational therapy
• Résumé listing professional experience
• Essay about personal professional goals in 500 words or less
• TOEFL or IELTS scores (internationally trained applicants from non-English speaking countries only). Writing skill scores are strongly preferred to be at or above 24.
• Applicants may be offered the opportunity to interview, if they so choose, in order to demonstrate appropriateness for admission to the PP-OTD program.

REQUIRED CORE COURSES:
Professional Seminar
Current Issues in Occupational Therapy Practice
Practice-Based Scholarship
Evidence for Practice
Outcomes Measurement
Capstone 1: Project Proposal
Capstone 2: Project Implementation and Evaluation

ELECTIVE COURSES:
Principles of Management and Leadership in Healthcare
Health Insurance and Reimbursement
Curriculum Design and Teaching in Health Professions
Educational Evaluation in Health Professions
Health and Wellness Promotion
Independent Study
THE PT PROFESSION

Physical therapy is a profession aimed at restoring maximum function and functional ability to patients following injury, illness, disease or surgery. Physical therapists develop evidence-based, patient-specific therapeutic intervention plans to prevent, minimize or alleviate impairments, functional limitations or disabilities while promoting health and wellness to the public. These patient-specific intervention plans are formulated after a detailed physical therapy examination and evaluation.

OUR PROGRAM

• The entry-level professional education program is a three-year, 100 semester credit hour program.
• The Doctor of Physical Therapy (DPT) program is offered at the Amarillo, Lubbock and Odessa campuses.
• Students and faculty on each campus are linked by a synchronous interactive multimedia environment for lectures and meetings. Local laboratory experiences allow students to learn hands-on clinical skills.

The program incorporates 36 weeks of clinical experience throughout the curriculum. Clinical internships feature inpatient and outpatient experiences and may include foundational skills, musculoskeletal, neurologic and elective settings. Students must pass a criminal background check prior to matriculation and assume responsibility for any additional costs incurred during clinical experiences.

PHYSICAL THERAPISTS

• Treat patients with acute or chronic injury, disease and physical disability and promote health and fitness to maximize quality of life in all age populations
• Collaborate with a variety of health care professionals through consultation, education and research to provide patient services
• Act as consultants for businesses and public and private organizations
• Rely on the application of a well-developed body of scientific and clinical knowledge from foundational behavioral and social sciences

AFTER GRADUATION

DPT graduates must pass a national licensure examination to practice physical therapy. Additional licensure requirements for physical therapists vary by state according to practice act and state regulations that govern the practice of physical therapy.

RECOMMENDED COURSES:

- Technical Writing/English
- Speech
- Exercise Physiology
- Kinesiology
- Biomechanics
- Developmental or Child Psychology
- Additional Anatomy and Physiology

CAREER OPPORTUNITIES

Typical settings in which physical therapists practice include:

- Outpatient clinics
- Hospitals
- Rehabilitation facilities
- Long-term care facilities
- Patient homes
- Schools
- Industrial settings
- Higher education
- Wellness/fitness centers

APPLICATION REQUIREMENTS

The following requirements must be met to be eligible for admission to the DPT program:

• Verified application through the Physical Therapy Central Application System (PTCAS) and a School of Health Professions supplemental application at WWW.TTUHSC.EDU/HEALTH-PROFessions/ADMISSIONS/APPLICATION.ASPX
• Bachelor’s degree from an accredited college or university prior to starting the DPT program
• Submit Graduate Record Examination (GRE) scores to PTCAS. The DPT program GRE code used in PTCAS is 7155. Competitive GRE scores are required for admission, considering verbal, quantitative and analytical sub-scale scores
• Possess a minimum 3.0 cumulative and 3.0 prerequisite GPA on a 4.0 scale
• Complete all prerequisite courses prior to starting the DPT program. Applicants who have more than 16 semester credit hours of science prerequisites outstanding at the time of application will not be considered.
• Complete a minimum of 100 documented hours of clinical experience observing a physical therapist as a volunteer or paid employee
• Obtain two letters of recommendation – one from a physical therapist (required) and one from an academic instructor (recommended)
THE SC.D. PROFESSION

The Doctor of Science in Physical Therapy (Sc.D.) program is designed to prepare clinical practitioners in advanced orthopedic physical therapy with an emphasis in clinical diagnostics and manual therapy. In addition, the program provides Sc.D. students with the opportunity to develop expertise in clinical education and research, which contributes to the development and growth of evidence-based practice within the profession. Moreover, it provides students with expertise to manage patients who are experiencing complex musculoskeletal problems. The Sc.D. program is an ideal setting for practicing physical therapists to continue their post-professional education. The program admits clinicians who hold a bachelor’s, master’s or doctoral professional degree in physical therapy and is presented in a weekend course format with web-based course components. Students are allowed to continue their clinical employment as physical therapists while enrolled, as their work settings provide the ideal place for applying what is learned in the program.

OUR PROGRAM

The Sc.D. program is the first of its kind in the Southwestern U.S. The Sc.D. program is a logical means for therapists to achieve requisite levels of expertise and specialization by providing an advanced skillset that is increasingly essential for successful practice in modern society. The program will provide therapists with the opportunity to develop the advanced knowledge base, clinical skills and professional competencies required for state-of-the-art patient evaluations and treatment. The end result is increased levels of sophistication, efficiency, efficacy and clinical outcomes for those seeking an orthopedic physical therapy practice.

CURRICULUM

Students entering with a master’s professional degree in physical therapy are required to complete a minimum of 48 semester hours. Students entering with a doctoral professional degree in physical therapy are required to complete a minimum of 36-48 hours, depending on their previous DPT course work. The following outlines the expected course work for both groups:

- Six clinical practice courses
- Three core courses
- Three elective courses
- Three teaching or research courses
- Two clinical dissertation courses

Students entering with a bachelor’s professional degree in physical therapy are required to complete a minimum of 70 semester hours, which include:

- 10 clinical practice courses
- Three core courses
- Six elective courses
- Three teaching or research courses
- Three clinical dissertation courses

ADMISSION REQUIREMENTS

The following requirements will be considered for admission to the Sc.D. program:

- A completed online application
- A bachelor’s, master’s or doctoral professional degree in physical therapy
- At least one year of clinical experience
- Currently practicing as a physical therapist
- All official college transcripts
- Minimum 3.0 GPA on a 4.0 scale
- Two supporting letters of reference
THE REHABILITATION SCIENCE PROFESSION

Rehabilitation Science is an interdisciplinary field of study that investigates theories and practices that contribute to improving the quality of life of individuals who have functional limitations caused by health conditions that affect communication and/or movement. The program is designed to prepare students with the knowledge and abilities to perform in academics, research and industrial positions. In addition, the program prepares students to meet demands at local, state, regional and national levels for doctoral level scholars.

OUR PROGRAM

The Doctor of Philosophy in Rehabilitation Science (Ph.D. RS) program offers concentrations in Communication Sciences and Disorders (CSD) and Movement Sciences and Disorders (MSD). Students in the CSD concentration can choose specializations in audiology/hearing science or speech-language pathology/speech science. Students in the MSD concentration select primary and secondary academic emphases and research specializations to develop customized areas of expertise.

CURRICULUM

| Concentration Prescribed (CSD or MSD) | 24 hours |
| Foundation/Introductory              | 3 hours  |
| Teaching                             | 8 hours  |
| Research Design and Statistics       | 9 hours  |
| Technical Writing                    | 6 hours  |
| Research Methods                     | 6 hours  |
| Research                             | 6 hours  |
| Electives                            | 12 hours |
| Doctoral Dissertation                | 12 hours |

ADMISSION REQUIREMENTS

Admission to the Ph.D. RS program is competitive and is based on the applicant’s academic record, professional experiences, goals, interests and potential to substantively contribute to the field of rehabilitation science. The following requirements must be met to be eligible for admission:

- Completed and submitted online application
- Official transcripts from all universities attended (whether or not a degree was earned)
- Three letters of recommendation
- Graduate Record Examination (GRE) scores (Code: 6851)
- Graduate degree in Audiology, Athletic Training, Occupational Therapy, Physical Therapy, Speech-Language Pathology or other related field
- Cumulative graduate grade point average (GPA) of 3.0 or better
- Letter of intent specifying area of interest
- Writing sample (Copy of master’s thesis OR research paper)
- Interview with at least one faculty member
- Test of English as a Foreign Language (TOEFL) or International English Language Testing Service (IELTS) scores, for all International applicants
- Proof of appropriate immunizations against infectious diseases
- Résumé

BSHM MISSION

The mission of the Bachelor of Science in Healthcare Management (BSHM) program is to prepare students to be successful, competent and ethical managers in the evolving U.S. health care system.

OUR PROGRAM

The BSHM program operates through online instruction to provide broad exposure to the skills, knowledge and abilities needed to prepare students to enter management and leadership positions within health care organizations. Applicants can transfer college credits to complete the 120-credit hour requirement for a bachelor’s degree. Transfer credits from previous courses are considered on a case-by-case basis. Students enrolled in the BSHM program are required to complete the final six academic hours through the BSHM program.

An applicant’s previously completed college course work determines which degree concentration is followed. There are two concentrations for completing the 120 hours of the BSHM degree plan: Healthcare Professional Concentration and the Executive Management Concentration.

HEALTHCARE PROFESSIONAL CONCENTRATION

Concentration Options:
- Certified Radiology Technologists
- Emergency Medical Services
- Medical Assistants
- Respiratory Care Practitioners
- Occupational Therapy Assistants
- Physical Therapy Assistants
- Licensed Vocational Nurses
- Clinical Laboratory Technicians
- Dental Hygienists
- Pharmacy Technicians
- Medical Sonographer
- Nuclear Medicine Technologist

Students entering the Healthcare Professional Concentration must be certified, licensed or registered in one of the health science concentration options as recognized by their specific clinical specialty’s certification licensure or registration accrediting body. Other healthcare clinical concentrations will also be considered. Academic credits earned in one of the health science concentrations may provide up to 48 technical credit hours.

The Healthcare Professional Concentration curriculum is composed of:

| Texas Common Core | 42 hours |
| BSHM Healthcare Professional | 27 hours |
| Concentration Core Courses | 3 hours |
| Clinical Discipline Specific Advanced Case Study | 3 hours |
| Technical/Approved Credits | 48 hours |

EXECUTIVE MANAGEMENT CONCENTRATION

Students who do not have a healthcare certification, licensure or registration may be considered for admission to the Executive Management Concentration. Students accepted must have completed at least 42 college credit hours and the Texas Common Core requirements (see table below).

The Executive Management Concentration curriculum is composed of:

| Texas Common Core | 42 hours |
| BSHM Healthcare Management | 34 hours |
| Concentration Core Courses | 8 hours |
| Advanced Case Study | 12 hours |
| Health Care Management Electives | 24 hours |

Technical credits must be pre-approved by the academic advisor and completed prior to enrollment in Healthcare Management Advanced Case Study.

PREREQUISITE COURSES

| Texas Common Core | 6 hours |
| English | 6 hours |
| History | 6 hours |
| Math (College Algebra or higher) | 3 hours |
| Political Science | 6 hours |
| Natural Science | 6 hours |
| Creative Arts | 3 hours |
| Language, Philosophy and Culture | 3 hours |
| Social/Behavioral Science | 6 hours |
| Component Area Option | 3 hours |
| TOTAL | 42 hours |

ADMISSION REQUIREMENTS

- A minimum cumulative grade point average (GPA) of 2.50 on a 4.0 scale
- Completion of 42 credit hours of Texas Common Core requirements prior to matriculation
- Certification, licensure or registration in professional field is required for the Healthcare Professional Concentration*
master of science in
HEALTHCARE ADMINISTRATION

OUR CURRICULUM
This is a 36-credit hour program, consisting of 10 core courses and a choice of two electives. Our curriculum offers a health care focused approach to a broad array of topics. The core courses cover leadership and management, human resources management, health care delivery systems, economics and policy, finance, strategic planning and marketing, health law and ethics, research methods and statistics, informatics and data analytics and a capstone course that is a comprehensive synthesis of the core subjects. Our electives include medical sociology, quality and patient safety, organizational behavior, health insurance and reimbursement, health operations and supply chain management, healthcare business innovation, health systems engineering, long term care administration, and healthcare decision sciences and analysis.

OUR PROGRAM
The Master of Science in Healthcare Administration (MSHA) program is a completely online distance learning opportunity that prepares students for leadership, management or supervisory positions, such as health care executive, clinic manager, department supervisor or group practice manager. Some students are health care providers who have ongoing practices and want to learn more about how to manage them efficiently and effectively. Others are new to the health care field and are interested in entry-level or mid-management positions in health care administration. Our program helps by providing the necessary knowledge base to enable students to achieve these goals.

TIME TO COMPLETE THE DEGREE
Most of our students take one course in the summer and one in each of the spring and fall terms (two 8-week terms in fall and spring semesters). Some students may choose to take more courses, especially students who are not working full-time and have more time to devote to course work. The program usually can be completed in two years.

FACULTY
Our interdisciplinary core and adjunct faculty come from the practicing world of health care. Our faculty includes board-certified health care executives, physicians, physical therapists, CFOs, compliance officers and other health care professionals who possess the scholarly knowledge and the life experiences to help make you successful.

FLEXIBILITY
One of the advantages of a distance learning program is that there are no fixed class hours. While there are deadlines for completing assignments and exams, the course materials are available to the students at any time. You may prefer to do your schoolwork early in the morning before you go to work, or you may prefer to do it late at night. The choice is yours.

DEGREE QUALITY
Our online and executive-based degree is specifically designed with the working health care professional in mind. You will learn practical, relevant and legitimate skills that will prepare you to perform in the dynamic world of health care.

CAREER OPPORTUNITIES AND FACTS
Health care administration is a fulfilling career with excellent job prospects.

- Expected growth rate of 20% from 2016 to 2026
- Median pay of $98,350 in 2017
- Highest 10% earn more than $176,130

WWW.BLS.GOV/OOH/MANAGEMENT/MEDICAL-AND-HEALTH-SERVICES-MANAGERS.HTM

GRADUATE CERTIFICATES
For working professionals who want to expand their knowledge and further their education in healthcare administration without pursuing a full degree, the following graduate certificates are available:

Each are fully online, offered in accelerated 8-week format. Courses are eligible to transfer into the MSHA program. Admission requirements are the same as the MSHA requirements.
ADMISSION TO THE MSHA PROGRAM

To be considered for admission, applicants must have one of the following qualifications:

1. Bachelor’s degree from an accredited university with a minimum overall GPA of 2.7 or minimum overall GPA of 2.7 in the last 60 semester hours of courses, OR
2. Bachelor’s degree from an accredited university with a minimum overall GPA of 2.5, AND at least three years of professional or executive work experience, OR
3. Bachelor’s degree from an accredited university with a minimum overall GPA of 2.5, AND at least 9 semester hours of graduate education from an accredited university with a minimum GPA of a 3.0, OR
4. Graduate degree from an accredited university with a minimum GPA of 2.7.

The following are considered in the admissions process:
- All official college transcripts
- Acceptable grade point average
- Professional health care or executive experience

THE CLINICAL REHABILITATION COUNSELING PROFESSION

Clinical rehabilitation counselors empower people with disabilities to make informed choices, build viable careers and live more independently within the community. Through a counseling process, Clinical Rehabilitation Counselors provide and coordinate services for people with a wide range of physical & psychiatric disabilities, chronic conditions or diseases, and people who are in recovery from substance abuse disorders. Services include counseling to support clients in achieving their education and career goals through preparation activities and training for a specific occupation. Clinical rehabilitation counselors work with clients in a variety of settings, including schools and universities, state workforce systems, veteran’s services, advocacy and non-profit agencies, employee assistance programs, private forensic practice and hospital settings.

OUR PROGRAM

The Master of Science in Clinical Rehabilitation Counseling (MSCR) program is a distance education, graduate program designed to provide comprehensive training for the counseling field. Our mission is to provide high quality instruction to prepare students for a rewarding career in the counseling specialty of clinical rehabilitation counseling. Clinical education is an important part of counselor education. All students are required to complete a practicum and internship at a qualified site under the supervision of a qualified site supervisor. Graduates of the program are eligible to sit for national certification and apply for state licensure in most states.

STUDENTS IN THE MSCR PROGRAM WILL COMPLETE

- A minimum of 60 credit hours
- 100-hour practicum supervised by a qualified supervisor
- 600-hour clinical internship supervised by a qualified supervisor

MAKE A DIFFERENCE

A degree from the TTUHSC School of Health Professions provides career opportunities and the personal satisfaction that comes from making a difference in the lives of people affected by disability or disease.

JOB OUTLOOK

The American Counseling Association (ACA) recently conducted a comprehensive survey looking at counselor compensation and benefits across the profession. Survey results indicated that clinical rehabilitation counselors were named the highest paid specialty in the counseling profession and earned better overall benefits.

According to the ACA study, clinical rehabilitation counselors:

- are the most highly paid counseling specialty on average
- receive better overall benefits - employee retirement plan, medical coverage, dental, vision short-term and long-term disability - than other professional counselors

ADMISSION REQUIREMENTS

The following requirements should be met to be eligible for admission to the MSCR program:

- A completed online application
- A bachelor’s degree from an accredited college or university
- A minimum cumulative GPA of 2.7 or higher, or a minimum cumulative GPA of 2.7 or higher in the last 60 semester hours of courses.
- Two letters of recommendation
- A personal résumé
- Criminal background check required

*This program does not require the GRE.
THE ADDICTION COUNSELING PROFESSION

Addiction counselors provide treatment and coordinate services for people with a range of substance use disorders, addictions, co-occurring disorders and other behavioral health problems. These professionals conduct a range of activities, including: appraisal, diagnosis, treatment planning, counseling, referral and coordination with other health care providers. Addiction counselors provide individual, group and family counseling and also deliver prevention programming. They help clients find ways to address their addiction with family and friends and improve their social relationships. Furthermore, they help clients rebuild professional relationships and, if necessary, reestablish their career.

The field of addiction counseling is growing rapidly. Increased access to health insurance has created a shortage of qualified addiction counselors. Additionally, the current national epidemic underscores the need for masters level addiction counselors. There is a large demand for addiction counselors to work in prevention, integrated care and multidisciplinary treatment service delivery systems.

OUR PROGRAM

The Master of Science in Addiction Counseling (MSAC) program is a distance education, graduate program designed to provide comprehensive training in counseling with a specialization in addiction counseling. Our mission is to provide the highest quality of instruction to prepare students for a rewarding career in addiction counseling.

Clinical education is an integral aspect of this program. We are committed to preparing entry-level addiction counselors to work effectively and ethically through the mastery of evidence-based counseling practices. Addiction counseling clinical experiences are focused on translating acquired knowledge, skills, and attitudes into practice across a variety of settings. Our program also prepares graduates to provide distance-based counseling.

Graduates will be prepared to understand the unique needs of persons with addiction or behavioral health disorders across their lifespans within their communities, workplaces, personal relationships and activities. Furthermore, graduates of this program will possess the competencies and experiences necessary to pursue national certification and apply for licensure in most states.

FACULTY

Our interdisciplinary core and adjunct faculty come from the practicing world of health care.

Our counselor educators are health care professionals who possess both the scholarly knowledge and the clinical experiences to help prepare you for a successful career.

STUDENTS IN THE MSAC PROGRAM WILL COMPLETE

- A minimum of 60 credit hours
- 100-hour practicum with direct client contact
- 600-hour clinical internship supervised by a qualified professional counselor

ADMISSION REQUIREMENTS

The following requirements should be met to be eligible for admission to the MSAC Program:

- A completed online application
- Bachelor’s degree from an accredited college or university
- Overall GPA of 2.7 from all previous institutions or an overall GPA of 2.7 during the last 60 semester hours
- A personal résumé
- Two letters of recommendation

*This program does not require the GRE.
THE CLINICAL MENTAL HEALTH COUNSELING PROFESSION

As the value placed on health has increased, the impact of mental health on an individual's well-being has continued to increase. Mental health counselors provide and coordinate services to persons seeking to improve their relationships, optimize their personal functioning and lead satisfying lives. Committed to guiding people through change processes, counselors function to explore the options, choices and barriers individuals experience in their quest for optimal mental health. Counselors work in a variety of settings and with diverse groups of individuals, families and other groups. Leading the path to remote service provision, trainees in the Master of Science in Clinical Mental Health Counseling (MSMH) program at TTUHSC will receive supplementary training to build abilities to provide distance-based counseling services.

OUR PROGRAM

The MSMH degree program is a distance education, graduate program designed to provide comprehensive training for the mental health counseling field. Our mission is to provide students with the highest quality of instruction in order to prepare students for a career in the exciting field of mental health counseling. Graduates of this program will be eligible to sit for the National Counselor Exam and to apply for licensure in most states.

STUDENTS IN THE MSMH PROGRAM WILL COMPLETE

- A minimum of 60 credit hours
- 100-hour practicum with 40 hours of direct client contact
- 600-hour clinical internship supervised by a qualified professional counselor

MAKE A DIFFERENCE

A degree from the TTUHSC School of Health Professions provides workforce opportunities and the personal satisfaction that comes from truly making a difference in the lives of people affected by mental health concerns.

GET YOUR DEGREE FROM HOME

Wherever home is for you and whatever your age, pursuing your educational goals through our distance learning program is possible. The MSMH degree is entirely distance-based and is designed to increase the availability to as many working professionals as possible. A variety of students are expected to successfully complete the MSMH program without moving from their home or quitting work.

ADMISSION REQUIREMENTS

The following requirements should be met to be eligible for admission to the MSMH program:

- A completed online application
- Bachelor’s degree from an accredited college or university
- Overall GPA of 2.7 from all previous institutions or GPA of 2.7 in the last 60 semester hours of courses.
- Two letters of recommendation
- A personal résumé

*This program does not require the GRE.*
OUR PROGRAM

The Graduate Certificate in Veteran Services (GCVS) curriculum is designed to involve the learner as an active participant in the essential knowledge, skills, and attitudes necessary for competent practice when working with veterans. It is the intent of the program to graduate students with:

• an understanding of the psychosocial, social, vocational, and health needs of veterans, and the impact of those needs upon the veteran and their family system;
• the ability to facilitate various types of groups for veterans; and
• the ability to network and link veterans and their families with specialized services.

The GVCS program is a distance education, graduate certificate program designed to provide comprehensive training to serve and work with veterans. Our mission is to provide high quality instruction to prepare students for a rewarding career working with veterans. The graduate certificate in Veterans Services is designed for:

• Clinical Rehabilitation Counselors who wish to advance their knowledge
• Veterans who want to serve other veterans
• Active-duty personnel interested in a career serving veterans
• Students and professionals in rehabilitation sciences, health and human services, counseling, and social science
• Veterans’ Administration employees who wish to advance their knowledge
• Education and career advisors who work with veterans
• Veterans’ services officers
• Human resources professionals in organizations committed to hiring veterans
• Law-enforcement personnel and other first responders
• Military family members who wish to advocate more effectively

JOB OUTLOOK

Graduates will have career opportunities in almost every aspect of the helping profession in substance abuse counseling, health and human services, community mental health centers, community resource centers, homeless shelters and services, Veteran Affairs’ hospitals including their specialty units and research/service centers.

ADMISSION REQUIREMENTS

The following requirements should be met to be eligible for admission to the GCVS program:

• A completed online application
• A bachelor’s degree from an accredited college or university
• A minimum cumulative GPA of 2.5 or higher, or a minimum cumulative GPA in the last 60 semester hours of courses of 2.5 or higher.
• 2 letters of recommendation
• A personal résumé
• Criminal background check required

HOW TO APPLY
Follow the directions below to complete our online application. Applications must be submitted online. No hard copies of our application are available. The application is available at:
WWW.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/APPLICATION.ASPX

Doctor of Physical Therapy (DPT) Applicants
WWW.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/APPLICATION.ASPX
Go to the Doctor of Physical Therapy Applicants section and click on “PTCAS” to complete the application. In addition, DPT applicants are required to complete the School of Health Professions supplemental application, which also can be found on the above web address.

Doctor of Audiology (AuD) Applicants
WWW.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/APPLICATION.ASPX
Go to the Doctor of Audiology Applicants section and click on “CSDCAS” to complete the application. In addition, AuD applicants are required to complete the School of Health Professions supplemental application, which also can be found on the above web address.

Clinical Laboratory Science (CLS) Applicants
WWW.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/APPLICATION.ASPX
Go to the Clinical Laboratory Science Applicants (BS, 2nd Cert) section and click on “AHCAS” to complete the application. In addition, CLS applicants are required to complete the School of Health Professions supplemental application, which can also be found at the above web address.

Master of Athletic Training (MAT) Applicants
WWW.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/APPLICATION.ASPX
Go to the Master of Athletic Training Applicants section and click on “ATCAS” to complete the application. In addition, MAT applicants are required to complete the School of Health Professions supplemental application, which can also be found on the above web address.

Doctor of Occupational Therapy (OTD) Applicants
WWW.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/APPLICATION.ASPX
Go to the Doctor of Occupational Therapy Applicants section and click on “OTCAS” to complete the application. In addition, OTD applicants are required to complete the School of Health Professions supplemental application, which also can be found on the above web address.

Master of Occupational Therapy (MOT) Applicants
WWW.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/APPLICATION.ASPX
Go to the Master of Occupational Therapy Applicants section and click on “OTCAS” to complete the application. In addition, MOT applicants are required to complete the School of Health Professions supplemental application, which also can be found on the above web address.

Master of Science in Molecular Pathology (MP) Applicants
WWW.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/APPLICATION.ASPX
Go to the Master of Science in Molecular Pathology Applicants section and click on “AHCAS” to complete the application. In addition, MP applicants are required to complete the School of Health Professions supplemental application, which also can be found on the above web address.

Master of Physician Assistant Studies (PA) Applicants
WWW.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/APPLICATION.ASPX
Go to the Master of Physician Assistant Studies Applicants section and click on “CASPA” to complete the application. In addition, PA applicants are required to complete the School of Health Professions supplemental application, which also can be found on the above web address.

Master of Science in Speech-Language Pathology (SLP) Applicants
WWW.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/APPLICATION.ASPX
Go to the Master of Science in Speech-Language Pathology Applicants section and click on “CSDCAS” to complete the application. In addition, SLP applicants are required to complete the School of Health Professions supplemental application, which also can be found on the above web address.

STATE AUTHORIZATION FOR DISTANCE LEARNING
Texas Tech University Health Sciences Center (TTUHSC) has been approved by the Texas Higher Education Coordinating Board to participate in the National Council for State Authorization Reciprocity Agreements (NC-SARA). NC-SARA is a voluntary, regional approach to state oversight of postsecondary distance education. California is currently the only state that is not a NC-SARA member. As a public institution, TTUHSC is exempt from state oversight in California and not required to register with the Bureau for Private Postsecondary Education (BPPE).

Please see the SARA Policies and Standards document for details of specific authorized activities. Please note that TTUHSC is not authorized to conduct internships leading to professional licensure without direct coordination with the licensure board in that state. TTUHSC has implicit or explicit agreement to conduct 100% online learning activities to students in the indicated states. These agreements do not explicitly allow additional activities with a few exceptions such as a limited number of legislative internships in Washington, D.C. NC-SARA also does NOT include approval by State Boards – such as Board of Nursing, Physical Therapy, etc.

If you have any questions, please contact the Office of Admissions and Student Affairs at 806-743-3220 or HEALTH.PROFESSIONS@TTUHSC.EDU
STUDENT COMPLAINTS
WWW.TTUHSC.EDU/STUDENT-SERVICES/GRIEVANCES.ASPX

CRIMINAL BACKGROUND CHECK
The TTUHSC School of Health Professions requires a Criminal Background Check (CBC) after admission, but prior to matriculation. CBCs allow the university to evaluate whether TTUHSC students are qualified, eligible and possess the character and fitness to participate in clinical care and/or clinical rotation sites at TTUHSC or participating institutions.

INTERNATIONAL APPLICANTS
Transcripts from any international college or university must have an official course-by-course evaluation from a Foreign Transcript Evaluation Service. Any applicant whose native language is not English must complete an English language proficiency exam (TOEFL or IELTS). Minimum acceptable scores and exceptions can be found on the School of Health Professions website at WWW.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/INTERNATIONAL_APPLICATIONS.ASPX

ADMISSIONS CHECKLIST
• Be certain you meet all admission requirements by the class start date.
• Specific application materials must be accessed via the TTUHSC School of Health Professions application website at: WWW.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/APPLICATION.ASPX
• Complete all admission materials and mail to:
  Texas Tech University Health Sciences Center
  School of Health Professions Admissions and Student Affairs
  3601 4th Street, Mail Stop 6294
  Lubbock, TX 79430
• Have official transcripts of college course work from all colleges attended sent to the above address. Make certain the transcripts are mailed to the above address only. Do not send transcripts to Texas Tech University. This will delay processing of your application.
• It is the applicant’s responsibility to see that updated transcripts containing the applicant’s most recently completed course work have been received before the admissions deadline for each program. It is the applicant’s responsibility to confirm that all necessary application materials have been received before the closing date for receiving application materials.
• Have documentation of successful completion of the Texas Success Initiative (TSI) sent to the TTUHSC School of Health Professions, if it is not included with transcripts.

NOTE: All applicants with completed applications will be notified in writing as to the final status of their application after review by program admissions committees. Interviews may be required before final admission decisions are reached.
WHAT IS THE DIFFERENCE BETWEEN TEXAS TECH UNIVERSITY (TTU) AND TEXAS TECH UNIVERSITY HEALTH SCIENCES CENTER (TTUHSC)?
Both TTU and TTUHSC are under the same system, but they are separate universities. If you graduate from TTUHSC, your diploma will read Texas Tech University Health Sciences Center.

SINCE TTUHSC IS SEPARATE FROM TTU, WILL I STILL HAVE ACCESS TO FACILITIES ON THE TTU CAMPUS?
TTUHSC students do have access to the recreational sports center, university sporting events and various other services, which will be explained to you at orientation upon your acceptance. This does not include distance learning students.

HOW DO I APPLY TO ONE OF THE PROGRAMS WITHIN THE SCHOOL OF HEALTH PROFESSIONS?
Our application is not completed through the Texas Common Application or Texas Tech University Graduate School. School of Health Professions programs require that you apply specifically to the respective program on our school’s website. You can access this application at WWW.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/APPLICATION.ASPX

Applicants applying to the Physician Assistant, Athletic Training, Physical Therapy, Occupational Therapy, Clinical Laboratory Science, Clinical Laboratory Science Second Degree, Clinical Laboratory Science Post-Baccalaureate Certificate, Molecular Pathology, Speech-Language Pathology and Audiology programs are required to complete the TTUHSC School of Health Professions supplemental application, as well as the profession specific application.

IF I HAVE APPLIED PREVIOUSLY TO A PROGRAM WITHIN THE SCHOOL OF HEALTH PROFESSIONS DO I HAVE TO FILL OUT A NEW APPLICATION?
Yes, you will have to complete a new application. However, we can use previous documents that you submitted to our office, including transcripts, résumés and immunization records. If anything has changed on these documents, please submit an updated version. All official transcripts, letters of recommendation and résumés must have an issued date within the last year.

WHERE CAN I OBTAIN THE RECOMMENDATION AND IMMUNIZATION FORMS?
All forms are available through the application and only are available to applicants when the application opens. All recommendation letters are submitted electronically.

WHAT DO I NEED TO DO IF I AM AN INTERNATIONAL APPLICANT?
If you are an international applicant, please review and follow the instructions listed at: WWW.TTUHSC.EDU/HEALTH-PROFESSIONS/ADMISSIONS/INTERNATIONAL_APPLICANTS.ASPX.

CAN I STILL HAVE COURSES IN PROGRESS WHILE APPLYING?
Yes, you can still have courses in progress while applying. Some programs have specific rules regarding the maximum number of hours you can have in progress for your application to be processed by the selection committee. All programs require that prerequisites be completed before starting the program.
**CAN I TRANSFER TO THE SCHOOL OF HEALTH PROFESSIONS?**
No, all applicants have to be accepted into the specific program for which they are applying. Students already enrolled in a professional program and want to transfer to TTUHSC still have to apply and can only transfer if it is approved by the program director. This is done on a case-by-case basis only.

**WHO CAN ADVISE ME IF I AM A PROSPECTIVE STUDENT FOR ONE OF THE SCHOOL OF HEALTH PROFESSIONS’ PROGRAMS AT TTUHSC?**
Each one of our programs has a specific set of prerequisites that an applicant must complete to be eligible for the program. In order to make sure that you are on the right track with the prerequisites, it is a good idea to contact the School of Health Professions Office of Admissions and Student Affairs at HEALTH.PROFESSIONS@TTUHSC.EDU or 806.743.3220 to talk with an admission counselor. Admission counselors for all School of Health Professions programs are located in Lubbock.

**ARE THERE ANY SCHOLARSHIPS AVAILABLE THROUGH THE SCHOOL OF HEALTH PROFESSIONS?**
There are a limited number of scholarship opportunities available through the School of Health Professions. Your application to the program of your choice will serve as your scholarship application for opportunities available within your program. All other scholarships are only available to students after starting the program. You can pursue any other scholarship opportunities outside of the school on your own. Additionally, you can contact the Office of Financial Aid at 806.743.2300 to learn about further resources.

**WHAT IS THE TYPICAL SALARY A SCHOOL OF HEALTH PROFESSIONS GRADUATE CAN ANTICIPATE?**
To learn more about average salaries for professions within health professions in Texas, please review the information at WWW.TEXASHOTJOBS.ORG.

**WHEN DOES THE PROGRAM START?**
**FALL SEMESTER** - Rehabilitation Science (Ph.D.), Physical Therapy (Sc.D.), Clinical Laboratory Science (B.S.), Clinical Laboratory Science (Second Degree B.S.), Clinical Laboratory Science (Post-Baccalaureate Certificate), Audiology (Au.D.), Speech-Language Pathology (M.S.), Speech, Language, and Hearing Sciences (B.S.), Speech, Language, and Hearing Sciences (Second Degree B.S.), Healthcare Administration (M.S.), Healthcare Management (B.S.), Healthcare Informatics & Data (Post-Baccalaureate Certificate), Health Systems Policy & Management (Post-Baccalaureate Certificate), Addiction Counseling (M.S.), Clinical Mental Health Counseling (M.S.), Clinical Rehabilitation Counseling (M.S.), Healthcare Finance and Economics (Post-Baccalaureate Certificate), Health Systems Engineering and Management (Post-Baccalaureate Certificate), Long Term Care Administration (Post-Baccalaureate Certificate), Veteran Services (Post-Baccalaureate Certificate) and Post-Professional Doctor of Occupational Therapy.

**SPRING SEMESTER** - Rehabilitation Science (Ph.D.), Healthcare Administration (M.S.), Healthcare Management (B.S.), Healthcare Informatics & Data (Post-Baccalaureate Certificate), Health Systems Policy & Management (Post-Baccalaureate Certificate), Addiction Counseling (M.S.), Clinical Mental Health Counseling (M.S.), Clinical Rehabilitation Counseling (M.S.), Healthcare Finance and Economics (Post-Baccalaureate Certificate), Health Systems Engineering and Management (Post-Baccalaureate Certificate), Long Term Care Administration (Post-Baccalaureate Certificate), Veteran Services (Post-Baccalaureate Certificate) and Post-Professional Doctor of Occupational Therapy.

**SUMMER** - Rehabilitation Science (Ph.D.), Physical Therapy (Sc.D.), Physical Therapy (DPT), Athletic Training (MAT), Occupational Therapy (MOT), Physician Assistant Studies (MPAS), Molecular Pathology (M.S.), Healthcare Administration (M.S.), Healthcare Management (M.S.), Healthcare Informatics & Data (Post-Baccalaureate Certificate) and Health Systems Policy & Management (Post-Baccalaureate Certificate), Healthcare Finance and Economics (Post-Baccalaureate Certificate), Health Systems Engineering and Management (Post-Baccalaureate Certificate), Long Term Care Administration (Post-Baccalaureate Certificate), Doctor of Occupational Therapy and Post-Professional Doctor of Occupational Therapy.
TUITION AND FEES

TRADITIONAL PROGRAMS

FALL OR SPRING SEMESTER
Full-time student enrolled in 15 hours
Resident Undergraduate $4,302.70
Resident Graduate $4,870.70
Non-Resident Undergraduate $10,527.70
Non-Resident Graduate $11,095.70

SUMMER SEMESTER
Full-time student enrolled in 7 hours
Resident Undergraduate $2,736.50
Resident Graduate $3,086.50
Non-Resident Undergraduate $5,641.50
Non-Resident Graduate $5,991.50

These fees may not represent all costs incurred by students. Many courses within each program have course fees that will be applied to tuition as necessary. Students on regional campuses will have appropriate fees waived.

Non-resident students, residing in the state of Texas, will be assessed tuition and fees at the rates provided in the section above. The distance learning rates provided below only apply to non-resident students physically residing outside of the state of Texas.

DISTANCE LEARNING TUITION AND FEES

CLINICAL LABORATORY SCIENCE (SECOND DEGREE AND CERTIFICATE PROGRAMS) AND BACHELOR OF SCIENCE IN HEALTHCARE MANAGEMENT
Non-resident students residing outside of the state of Texas enrolled in a distance learning program pay a fee of $485 per credit hour, which is $1,455 per 3-hour course. A record processing fee of $15 will be assessed each semester. Texas residents will be charged tuition at a rate of $200 per semester credit hour, $600 per 3-hour course and appropriate fees.

HEALTHCARE ADMINISTRATION
Non-resident students residing outside of the state of Texas enrolled in a distance learning program pay a flat fee of $570 per credit hour, which is $1,710 per 3-hour course. A record processing fee of $15 will be assessed each semester. Texas residents pay tuition of $250 per credit hour, which is $750 per 3-hour course and appropriate fees.

CLINICAL REHABILITATION COUNSELING, CLINICAL MENTAL HEALTH COUNSELING AND ADDICTION COUNSELING
Non-resident students residing outside of the state of Texas enrolled in a distance learning program pay a flat fee of $570 per credit hour, which is $1,710 per 3-hour course. A record processing fee of $15 will be assessed each semester. Texas residents pay tuition of $250 per credit hour, which is $750 per 3-hour course and appropriate fees.

DOCTOR OF SCIENCE IN PHYSICAL THERAPY
Non-resident students residing outside of the state of Texas enrolled in a distance learning program pay a flat fee of $710 per credit hour, which is $2,130 per 3-hour course. A record processing fee of $15 will be assessed each semester. Texas residents pay tuition of $250 per credit hour, which is $750 per 3-hour course and appropriate fees.

SOUTHERN ASSOCIATION OF COLLEGES & SCHOOLS
The Texas Tech University Health Sciences Center is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award baccalaureate, masters, doctoral, and professional degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of the Texas Tech University Health Sciences Center. The Commission should be contacted only if there is evidence that appears to support the institution’s significant non-compliance with a requirement or standard.

A member of the Texas Tech University System, TTUHSC has been accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) as a separate institution from Texas Tech University since 2004. TTUHSC received its reaffirmation of accreditation from SACSCOC in 2009 and will seek reaffirmation again in 2019.
