

# Master of Science in Molecular Pathology

## Molecular Pathology Textbook List

Spring 2021

### **HPMP 1002 – Foundations for Interprofessional Collaborative Practice**

- NO Textbook required or recommended

### **HPMP 5102 Graduate Seminar**

- Textbook: Molecular Diagnostics: Fundamentals, Methods and Clinical Applications; 3rd ed. Buckingham (Required)
- Author(s): Lela Buckingham
- Publisher: F.A. Davis
- Edition: 3rd
- ISBN: 978-0803668294

### **HPMP 5301 – Management of the Molecular Laboratory**

- Textbook: Laboratory management, Principles and Processes. Denise Harmening 3rd edition (Required)
- Author(s): Denise Harmening
- Publisher: D.H. Publishing
- Edition: 3rd
- ISBN: 978-0943903125

### **HPMP 5301 – Management of the Molecular Laboratory**

- Textbook: Molecular Diagnostics: Fundamentals, Methods and Clinical Applications; 3rd ed. Buckingham (Required)
- Author(s): Lela Buckingham
- Publisher: F.A. Davis
- Edition: 3rd
- ISBN: 978-0803668294

### **HPMP 5342 – Clinical Preceptorship**

- NO Textbook required or recommended

**HPMP 5408 – Applied Molecular Techniques II**

- Textbook: Molecular Diagnostics: Fundamentals, Methods and Clinical Applications; 3rd ed. Buckingham (Required)
- Author(s): Lela Buckingham
- Publisher: F.A. Davis
- Edition: 3rd
- ISBN: 978-0803668294

**HPMP 5441 – Graduate Research II**

- NO Textbook required or recommended
