

Master of Science in Molecular Pathology

Summer 2022

HPMP 1002 Foundations of Interprofessional Collaborative Practice with TeamSTEPPS Essentials

- No Textbook required or recommended

HPMP 5098 Special Topics

- No Textbook required or recommended

HPMP 5100 Issues in Molecular Pathology

- No Textbook required or recommended

HPMP 5104 Laboratory Fundamentals Calculations for Molecular Biology and Biotechnology (A Guide to mathematics in the laboratory) (REQUIRED)

- Textbook: Calculations for Molecular Biology and Biotechnology (A Guide to mathematics in the laboratory)
- Author(s): Frank H. Stephenson
- Publisher(s): Jones and Bartlett Learning
- Edition: 3rd
- ISBN:978-0128-022115

HPMP 5300 Research Design and Statistical Analysis (REQUIRED)

- Textbook: Introduction to Research and Medical Literature for Health Professionals
- Author(s): J. Glenn Forister and J. Dennis Blessing
- Publisher(s): Jones and Bartlett Learning
- Edition: 5th
- ISBN:978-1284-153774

HPMP 5300 Research Design and Statistical Analysis (REQUIRED)

- Textbook: Calculations for Molecular Biology and Biotechnology (A Guide to mathematics in the laboratory)
- Author(s): Frank H. Stephenson
- Publisher(s): Jones and Bartlett Learning
- Edition: 3rd
- ISBN:978-0128-022115

HPMP 5406 Molecular Biology of the Cell (REQUIRED)

- Textbook: Molecular Biology of the Cell
- Author(s): Alberts, et al
- Publisher(s): Garland Science
- Edition: 6th
- ISBN:978-0-8153-4432-2
