BECAUSE YOU GAVE...

Attending conferences and workshops are very important for all graduate students for showcasing their research as well as networking. Over the past years the Mary Lou Clements-Mann Scholarship has been instrumental in helping students out with their travel and lodging expenses for these events. Therefore, I would like to sincerely thank the donors for setting up such a scholarship. Additionally, I would really appreciate it if the scholarship criteria could be expanded to include the Neuroscience field as well. A lot of the students in our school are currently working in this area but not eligible for this scholarship unfortunately.

WITH YOUR SUPPORT, I CAN...

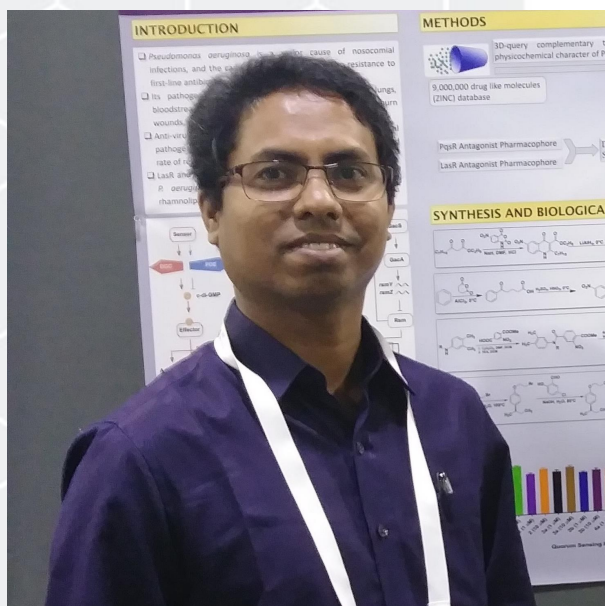

I will be attending a Pharmacokinetics Workshop at the Novartis Campus in Cambridge, MA next month. This scholarship would be very helpful for me in supporting my stay at Cambridge for the workshop.

WHY I CHOSE TTUHSC...

The Graduate school of Biomedical Sciences at TTUHSC in Amarillo consists of a rich mix of Principal Investigators specializing in cancer, neuroscience as well as pulmonary research fields. The facility provides a wonderful collaborative environment that fosters learning and personal growth for all graduate students, post docs as well as early career researchers. I personally believe these are the key criteria for all graduate students to improve themselves in order to be successful in their future careers. These facts lead me to choose TTUHSC over other schools for my graduate education.

This scholarship is a recognition of my research. I am working on infectious disease to develop drugs against *Pseudomonas aeruginosa*-associated infections. I was motivated to work on this research and now passionately motivated to carry on.

WHY I CHOSE TTUHSC...

TTUHSC is a perfect hub for life science research. The convenient campus location, course syllabus, and research opportunity made me choose TTUHSC.

BECAUSE YOU GAVE...

Thanks so much for this scholarship. You are greatly appreciated!

WITH YOUR SUPPORT, I CAN...

This scholarship will be very beneficial to me for the start of my last year in graduate school. I will be able to buy much needed supplies to help during my dissertation writing process which includes software and school supplies. So instead of working long hours in the school's library, I can write from the comfort of my own home thanks to you.

WHY I CHOSE TTUHSC...

I chose TTUHSC because of the exciting groundbreaking research conducted here and because of the successful track record of graduating highly skilled scientists on a yearly basis. The faculty generally cares for their students and makes sure that they are successful in their respective fields.

As a cancer vascular biologist, I need to attend vascular biology related conferences and workshops. The scholarship will help me attend such events which will further help me generate new ideas, develop skills and network with relevant scientists.

WHY I CHOSE TTUHSC...

TTUHSC offers a wide range of research opportunity along with relevant course work. The resource and environment in TTUHSC is student-friendly which I came to know from previous graduates from TTUHSC. All these facilities made me choose TTUHSC.

BECAUSE YOU GAVE...

Thank you so much for your generosity! The Mary Lou Clements-Mann Scholarship will help to alleviate some of the costs associated with graduate and medical education, such as buying textbooks and molecular biology guides, subscriptions to online resources geared towards research, professional memberships, and academic journal subscriptions. I greatly appreciate your help in furthering my education!

WITH YOUR SUPPORT, I CAN...

Primarily, this scholarship will help in furthering my graduate and medical career, by helping to cover the costs of textbooks, online resources, and professional memberships.

WHY I CHOSE TTUHSC...

When I was deciding where to pursue my graduate education, I noticed that the environment at TTUHSC was warm, kind, and welcoming to prospective students. It seemed like the students at our school were genuinely happy to be there, and everyone seemed to get along very well. I was attracted to that kind of collaborative learning, and knew it would help me thrive as an aspiring physician-scientist.

I will invest this scholarship in learning how to use computer programming language to filter and make use of the vast amount of data we are presented with every day in biomedical science research. I am currently enrolled in the professional data science certification program, and this scholarship will go towards earning the certificate.

WHY I CHOSE TTUHSC...

I am a Texas Tech University graduate. People and research drew me towards TTUHSC.
