

ISMAIL MOHIUDDIN

GRADUATE SCHOOL OF BIOMEDICAL SCIENCES

BECAUSE YOU GAVE...

Thank you so much for your generosity! The Mary Lou Clements-Mann Scholarship will help to alleviate some of the costs associated with graduate and medical education, such as buying textbooks and molecular biology guides, subscriptions to online resources geared towards research, professional memberships, and academic journal subscriptions. I greatly appreciate your help in furthering my education!

WITH YOUR SUPPORT, I CAN...

Primarily, this scholarship will help in furthering my graduate and medical career, by helping to cover the costs of textbooks, online resources, and professional memberships.

WHY I CHOSE TTUHSC...

When I was deciding where to pursue my graduate education, I noticed that the environment at TTUHSC was warm, kind, and welcoming to prospective students. It seemed like the students at our school were genuinely happy to be there, and everyone seemed to get along very well. I was attracted to that kind of collaborative learning, and knew it would help me thrive as an aspiring physician-scientist.

MONICA SHARMA

GRADUATE SCHOOL OF BIOMEDICAL SCIENCES

BECAUSE YOU GAVE...

I would like to sincerely thank the E. A. Franklin Trust and Giles McCrary Endowment for this scholarship. It is truly an honor for me to receive the poster award at the 2020 Student Research Week. I'm humbled to receive this scholarship and it has further motivated me to follow my passion in the field of cancer biology. I sincerely appreciate your support and generosity. Thank you once again!!

WITH YOUR SUPPORT, I CAN...

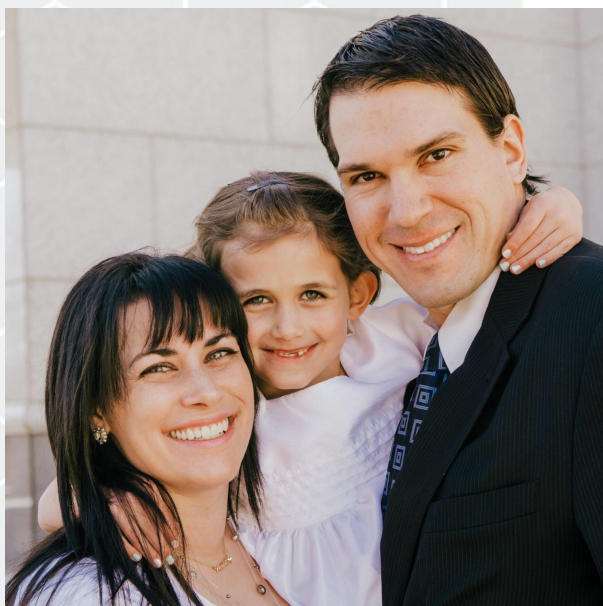

It is truly an honor for me to receive the poster award at the 2020 Student Research Week. Being awarded a scholarship not only provides financial support but also helps build up my confidence. I'm humbled to receive this scholarship and it has further motivated me to follow my passion in the field of cancer biology.

WHY I CHOSE TTUHSC...

I chose to attend graduate school at TTUHSC because of its commitment to training outstanding Ph.D. students in basic and translational research. TTUHSC fosters a student-friendly, highly collaborative research environment that produces exceptional Ph.D. students. I was really fascinated by the research opportunities that were available to students which aligned well with my research interests. I was thrilled to come to Dr. Kevin Pruitt's lab on TTUHSC Lubbock campus where I could follow my passion and contribute to discovering therapeutic vulnerabilities for cancer with limited treatment options.

RACHEL WASHBURN

GRADUATE SCHOOL OF BIOMEDICAL SCIENCES

BECAUSE YOU GAVE...

I am sincerely grateful and honored to be chosen as the inaugural recipient of your scholarship. Your scholarship will be crucial to the success of my research, as I am a nontraditional student with family and financial obligations in addition to my schooling. With your scholarship, I will be able to buy personal research materials that I would not have been able to afford otherwise including books, journal subscriptions, conference attendance fees, and personal lab equipment. Because of your generous scholarship, I will be able to more effectively carry out my research project that I hope will make an impact in medical treatments throughout the world.

WITH YOUR SUPPORT, I CAN...

As a disabled veteran with a passion for science and a family, this scholarship will help me to fulfill my goals of pursuing a career in science while ensuring my family is cared for financially. Between medical bills, house payments, and food expenditures, this scholarship will also help me to avoid going into debt while I'm in graduate school. Additionally, I will be able to purchase personal research materials like conference attendance fees, textbooks, some journal articles, and other personal lab equipment that I would be unable to afford otherwise.

WHY I CHOSE TTUHSC...

When it came time for me to look into graduate programs, I found TTUHSC program advisors to be the most knowledgeable, helpful, and pleasant of all the different programs I researched. Since I'm a nontraditional student, I needed to take some leveling courses to strengthen my science background, and I decided to take biochemistry through TTUHSC. My experience in this course with the instructors coupled with my experience researching in a couple HSC labs solidified my love for this school and my love for Lubbock. I was especially impressed with how nice the labs look and how well they function. TTUHSC was my first choice for graduate school because the people are amazing, the program is well-organized, and the research is fascinating.

BECAUSE YOU GAVE...

My sincere thanks and acknowledgment to Dr. Michael Bray for providing this opportunity to the graduate students of TTUHSC. Their efforts have given TTUHSC students a big platform to challenge themselves in the scientific field. My sincere condolence to Mary Lou and Jonathan Mann.

WITH YOUR SUPPORT, I CAN...

Receiving this scholarship was a big accomplishment towards my PhD carrier. This will not only motivate me to work hard towards my scientific carrier but also,

WHY I CHOSE TTUHSC...

My major reason to choose TTUHSC above all other universities was the excellence in research and the student-driven community here. I am very glad to join this university and I believe TTUHSC plays a major role in uplifting my scientific carrier.
