

AMELIA CARNAGEY

GRADUATE SCHOOL OF BIOMEDICAL SCIENCES

BECAUSE YOU GAVE...

I have a bachelors degree in fine art, and while I have applied this knowledge throughout my career it has never felt like it fit my desire to do more and make an impact in the community. Once I learned all that Public Health does for our world, and how becoming a public health practitioner would open doors to let me do more for others I knew this degree was the perfect next step for me. I cannot voice how grateful I am to all who made this degree possible for me! Thank you!

WITH YOUR SUPPORT, I CAN...

By having this opportunity to complete a Masters of Public Health with the assistance of the scholarship, I have been given the ability to return to school in an important field I am very passionate about. Without the scholarship I would not have been able to do so financially. By receiving the scholarship I not only was financially able to work on my masters, but I also felt the work was more important as it was being supported by those who allowed for me to have the scholarship. It gave me more sense of purpose, as well as confidence.

WHY I CHOSE TTUHSC...

Texas Tech Health Sciences Center has been a wonderful institution, and I have heard of the great education and career opportunities that come from working with TTUHSC. This encouraged me to select TTUHSC for my graduate program, and I have been thrilled by all I have learned and my personal growth during this program.

RANDALL ADAMS

GRADUATE SCHOOL OF BIOMEDICAL SCIENCES

BECAUSE YOU GAVE...

I would like to thank the donors for believing in the future of individuals like myself. I have spent the past 6 years living in Abilene and being part of several different public health initiatives. However, I have never been able to start any initiatives of my own. This scholarship has allowed me to gain the knowledge needed to properly execute public health initiatives in the future here in Abilene.

WITH YOUR SUPPORT, I CAN...

This scholarship allows me the financial stability to pursue my studies in a city I am not originally from. The scholarship pays for my tuition in its entirety. Therefore I am able to continue my studies without the added pressure of producing enough funds to pay tuition. I am able to afford housing, and transportation costs because of this alleviated financial pressure.

WHY I CHOSE TTUHSC...

TTUHSC offered the same environment that I had received at the college I attended for my undergraduate degree. I had multiple interactions with some of the professors and staff from TTUHSC and I believed that they would help me achieve the goals I am striving for. Having already taken classes under TTUHSC professors prior to beginning my graduate degree I knew that TTUHSC was going to prepare me for the job I wanted in the future.
