

SANDRA CHANG

SCHOOL OF MEDICINE

BECAUSE YOU GAVE...

Thank you so much for contributing to my education and allowing me to pursue my dream to become a primary care physician in an underserved community. It means the world that as a first generation college student, I can have the support from donors like you and hopefully inspire fellow first generation students to pursue their goals. Your contribution has made medical education more accessible for students of all backgrounds and for that, I am very appreciative.

WITH YOUR SUPPORT, I CAN...

This scholarship will allow me to not worry as much about financing my education and focus better on my actual medical education. Since I will be financially supporting myself through medical school, this helps to reduce the amount of loans I need to borrow. Especially with my goal of becoming a primary care physician in an underserved community, any contribution to allow me to achieve this goal is very appreciated.

WHY I CHOSE TTUHSC...

Having work experience in the healthcare field in urban and suburban areas, I wanted to learn in a rural area to diversify and expand my perspectives within and outside of medicine. Being located in Lubbock, TTUHSC was the perfect school to allow me to do this. Second, after attending my interview at TTUHSC, the community among students and faculty was a collaborative and supportive one that I wanted to be a part of. I felt it was a learning environment in which I could best thrive in regarding my education and beyond.

CHASE GRIFFIN

SCHOOL OF MEDICINE

BECAUSE YOU GAVE...

This donation means so much to the individuals who are working hard to achieve their life goals. By donating this money, you have helped not only one person to become the best physician available, but you have helped the individuals that will receive the care and devotion that physician will give to bettering the lives of their patients. Thank you very much.

WITH YOUR SUPPORT, I CAN...

This scholarship will enable me to focus on my greatest goal of becoming a physician, rather than the difficulties that come with focusing on medicine and financial difficulties at the same time. It will help me afford food and school supplies without having to work a full time job during medical school.

WHY I CHOSE TTUHSC...

I attended TTU as an undergraduate and love the town of Lubbock and the people in it. By going to TTUHSC SOM, I am able to continue to study and strive in Lubbock with the individuals I care about.
