As a medical professional I will strive to provide cultural and religious based care to my patients, and it would be helpful to gain such an education from my peers and patients, and for I to teach them. As a student passionate about science, I aim to be involved in basic science research about neuronal regeneration, which I can do at TTUHSC.

BECAUSE YOU GAVE...

Becoming a physician is my greatest goal in life because it means that I will be able to contribute to society in a means that complements my interests and passion for science and progress. For the majority of my life, I lived in financial struggle, and so I look forward with feverish excitement to the day I can practice medicine and help people like me and my family by providing excellent healthcare to underprivileged communities. Your scholarship will help me realize this dream by providing financial support during my schooling so I am prepared for the future.

WITH YOUR SUPPORT, I CAN...

The scholarship will help decrease the financial burdens of medical school for me by contributing to the overall tuition expenses. It will help provide me the opportunity to pay for my schooling to fulfill my goals of becoming a medical doctor and aiding people in underserved communities.

WHY I CHOSE TTUHSC...

I chose TTUHSC because I gained the impression that its medical school is greatly involved and invested in its community and its students. I also preferred TTUHSC's location over other larger metropolitan areas, as I enjoy the rural setting of West Texas and the unique challenges of a large hospital that serves over one hundred surrounding counties.
