

SARAH CHOI

SCHOOL OF MEDICINE

BECAUSE YOU GAVE...

Thank you so much for your donations toward my education. I hope to upon completing my training, give back to the community as you have to me through both service and support for future students. Education and living costs increased for my third year of medical school and any amount of help was valuable in relieving financial stressors during this year.

WITH YOUR SUPPORT, I CAN...

The scholarships will help me with the upcoming exam fees for this school year, in addition to the increased living costs of being at the Permian Basin TTUHSC campus. I cannot thank you enough for assisting me financially as I chase my dreams of becoming a physician.

WHY I CHOSE TTUHSC...

I chose TTUHSC because of the warm and welcoming environment shared with me during the interviews. In particular, the students at the school seemed happy and described their relationships with one another as collaborative and friendly as opposed to competitive. I felt the environment would help foster kindness in addition to being a strong learning environment.

SEAN BULL

SCHOOL OF MEDICINE

BECAUSE YOU GAVE...

Thank you for your generous donation towards our medical education. I aspire to become an Interventional Cardiologist after graduating, and I believe that these funds will assist me in becoming the best physician that I can be. I am grateful for this opportunity and sincerely thank you for your generosity.

WITH YOUR SUPPORT, I CAN...

These funds will help me to better afford for being in the Permian Basin, which is substantially more expensive than Lubbock. I plan to use these funds for fuel, food, and other necessities. This scholarship will go a long way in helping me achieve my goal of becoming a physician. My father has always encouraged me to chase my dream of becoming a physician, and I am so grateful for his support.

WHY I CHOSE TTUHSC...

During my interview at TTUHSC, I was impressed by their emphasis on inter-professional integration. I believe that it is crucial to learn alongside other health care providers. I also felt as though the students and faculty facilitated an ideal learning environment, and that they would provide me with the best medical education possible.
