

BRITTANY WRIGHT

SCHOOL OF NURSING

BECAUSE YOU GAVE...

My goal is to obtain my DNP, I would like to work as a family nurse practitioner and an instructor. During my journey to becoming a nurse I was greatly influenced by my instructors; I believe they made me the nurse I am today. I want to be able to positively influence future nurses and help the nursing community grow with kind, compassionate, wonderful people. By investing in my future, you are investing in the future of student nurses and the patients I will one day serve.

WITH YOUR SUPPORT, I CAN...

This scholarship will decrease my financial burden and allow me to focus on my studies. I will be able to use these funds for books and school supplies. My husband and I are both working on furthering our education, while he works full time and I stay home with our 2-year-old. Because of this we operate on a tight budget so receiving this scholarship is a wonderful blessing to me.

WHY I CHOSE TTUHSC...

From a young age I have wanted to attend TTUHSC. I believed it would be an amazing accomplishment to graduate from such a prestigious university. Due to lack of funds and having to help take care of my family I was unable to do so until now. Attending Texas Tech has been an amazing blessing and I am thankful for the opportunity. The information I have learned throughout the RN-BSN program has made me a better nurse and person.
