

## MELISSA BRISENO SCHOOL OF NURSING

### BECAUSE YOU GAVE...

From the bottom of my heart thank you. I greatly appreciate what you have done for myself, the students before me, and for those to come. You have inspired all of us to keep working our hardest, proving that it will pay off further down the line. This generous offer will not go forgotten or unrecognized, and has impacted more than just my financial hardship. You have been a crucial aspect in allowing me to continue working towards, and very soon obtain my bachelors degree. For that I cannot thank you enough.

### WITH YOUR SUPPORT, I CAN...

Through nursing school, I decided to quit working my part time job so that I would be able to focus on my studies. Though this decision was beneficial to my grades, it has added some stress because I know I've burdened my parents with paying for my living expenses, chipping in for school and assisting me in qualifying for student loans. At the moment they are already helping my grandparents significantly with their medical expenses, creating a rough time for us. This scholarship takes off some of the worry about how to come up with money for tuition.

### WHY I CHOSE TTUHSC...

I knew that I wanted to attend TTUHSC from the moment I saw a student in red scrubs. The scrubs stood out of course but what stood out to me the most was the professionalism that the student demonstrated. Upon further research I found that the pass rate for the NCLEX was in the high 90's at the time I sent in my application. That proved to me that the school and the faculty knew what they were doing. If there's any school that could mold me to be the best future nurse I could be, TTUHSC is it!
