

## JACEE BILLINGS

### BECAUSE YOU GAVE...

I am so incredibly thankful for your generosity! It is so awesome knowing there are people out there who want to help you succeed; it is motivating and gives me all the more reason to work toward accomplishing my goals. After seeing what an impact this made on relieving my financial burdens through school, I plan on hopefully one day starting a scholarship fund of my own to give back to others the way you have for me. Thank you so much again for being such an inspirational influence on me.

### WITH YOUR SUPPORT, I CAN...

I am so very thankful to be able to receive this scholarship. It allows me to relieve some of the heavy financial burdens that come with any type of professional school and allows me to focus on my schooling without constantly worrying about where my weekly gas and grocery money is coming from. The financial stress that comes with school truly does have an impact on headspace and can limit my ability to study, so I am extremely grateful for help in this area.

### WHY I CHOSE TTUHSC...

Having grown up around the Lubbock area, Texas Tech was always where I knew I wanted to go to college. I was taught to bleed red and black from a young age, so I pretty much had my mind made up since I was little to be a part of the Tech family, but when deciding to go to the TTUHSC SOP, it was really the atmosphere they had created that gave such a family feel that really piqued my interest. The awesome ladies at student services always made it feel so welcoming as well!
