

RHEENA SHERIFF

JERRY H. HODGE SCHOOL OF PHARMACY

BECAUSE YOU GAVE...

Thank you so much to the donors, I am so honored to receive this scholarship and grateful that I was selected. I can't thank you enough for believing in me and my future in pharmacy.

WITH YOUR SUPPORT, I CAN...

This scholarship will help me greatly with my tuition.

WHY I CHOSE TTUHSC...

I chose TTUHSC because of the phenomenal staff and opportunities the school has to offer for me to further my career in pharmacy.

KATY JACOBS

JERRY H. HODGE SCHOOL OF PHARMACY

BECAUSE YOU GAVE...

I have said it before and I know I will say it many more times, but I cannot thank Doyle enough for his influence on me, my family, and the profession of pharmacy. Doyle is the prime example of a life well lived; he enjoys the moments, gives generously, and lives joyfully. If all of us were just a little bit more like Doyle, the world would be a better place. I never had the opportunity to know Roberta, but between the stories I have heard and what I have read in "The Redneck and the High Maintenance Woman", I know she was a force to be reckoned with. Thank you again for the continual support and encouragement; I look forward to the day when I can return the favor.

WITH YOUR SUPPORT, I CAN...

This scholarship allows me to focus on growing my knowledge of pharmacy as well as on growing as a person. The relief that this scholarship brings in not having to worry about tuition, loans, and living expenses cannot be overstated. Each scholarship is a wonderful reminder and encouragement about why I have chosen pharmacy. My hope is to one day offer the same hope and encouragement to other students.

WHY I CHOSE TTUHSC...

I chose TTUHSC because west Texas is home. This area, this community, these people are unmatched and have formed me into who I am today. After leaving the state for undergrad, I could not wait to return to the area and become involved with the community that molded me. There is no other group of people I would rather learn from and eventually serve than those in this area. Additionally, TTUHSC has a reputation that is known far beyond this area for producing professionals who are exceptionally prepared to offer the best patient care. How could I not want to be a part of an institution that offers the best education surrounded by the best people?

JERRY H. HODGE SCHOOL OF PHARMACY

BECAUSE YOU GAVE...

I just wanted to thank you so much for giving me the scholarship. Because of your generosity, it will help me further my education at Texas Tech University Health Sciences Center School of Pharmacy in a way that would make me a better pharmacist when I finish pharmacy school. My desire to become a pharmacist started when I was diagnosed with autism when I was two years old, and my doctor told my parents that there was a good chance that I was not able to speak and that my intelligence would be below average. Fortunately, it did not happen. I received special schooling and I progressed into normal curriculum, where I began to perform well academically with the help of my teachers. When I got to high school, I became ranked eighth in my graduating class because I harnessed my sharp memory

WITH YOUR SUPPORT, I CAN...

I will use the scholarship to help me pay for my pharmacy school tuition. I will also use the funds to help me pay for both the train costs through the DART rail system and for the busing costs in Dallas as part of my transportation. Since I plan to get housing in Dallas near where I attend school, I will use the funds to pay for my room and board. I will also use the funds to pay for the HSC general fees and loan fees. Finally, I plan to use the scholarship to help me pay for personal and miscellaneous expenses.

WHY I CHOSE TTUHSC...

I wanted to attend Texas Tech University Health Sciences Center School of Pharmacy after I looked at a variety of factors including the following: the outstanding academic prowess of the university, the interaction with a family friend Ashley Ghazizadeh, who is a current pharmacy student, the interactions with a faculty member at the Health Professions Fair in UT Austin, and the close proximity of the campus to my home in Dallas. However, I was fascinated most by the fact that your program requires a significant number of clinical hours in the pharmacy in order to graduate from the Pharm.D. program at Texas Tech.
