

KAYLEE MARTIN

JERRY H. HODGE SCHOOL OF PHARMACY

BECAUSE YOU GAVE...

I greatly appreciate your generosity in allowing me to further my education, as it would not be possible without your support. It is a tremendous privilege to be awarded this scholarship, and I am absolutely thrilled to be given the opportunity to continue my doctorate studies at the TTUHSC Jerry H. Hodge School of Pharmacy.

WITH YOUR SUPPORT, I CAN...

This scholarship will lessen the financial burden that comes along with furthering my education beyond my undergraduate degree. Because of the generosity of scholarship donors, I have the opportunity to pursue my goal of becoming a Doctor of Pharmacy in West Texas.

WHY I CHOSE TTUHSC...

It's safe to say that my roots are planted in West Texas, as I grew up in a small farming community in Roscoe, Texas. I then moved up to Lubbock and graduated from Texas Tech University with my Bachelor of Science in Animal Science in May of 2018. Proudly continuing my education as a red raider, I began pharmacy school at TTUHSC in Abilene in August of 2018. I have a desire and passion to better the career of pharmacy, specifically in West Texas. TTUHSC allows me to pursue this goal while keeping my roots firmly planted in West Texas.

ZOE GAGNON

JERRY H. HODGE SCHOOL OF PHARMACY

BECAUSE YOU GAVE...

Attending conferences is extremely beneficial to progressing my pharmacy career and unifying the profession, but it does come at a cost. Managing school expenses and travel funds is stressful, especially after taking out the maximum amount of federal loans. However, receiving this scholarship allows me the opportunity to attend more professional conferences during my last year in school. Thank you so much for your generosity and helping me achieve my educational goals!

WITH YOUR SUPPORT, I CAN...

Ever since beginning pharmacy school, I knew I wanted to pursue a residency program. I am currently interested in working with the pediatric population within the emergency department. Working with children and global health is a passion of mine that stems from participating in a medical relief trip last summer in the Dominican Republic through the organization Foundation for International Medical Relief of Children (FIMRC). Working with underserved populations and providing direct patient care was extremely rewarding, and is something I hope to incorporate into my future. This scholarship will help me do that.

WHY I CHOSE TTUHSC...

I chose TTUHSC school of pharmacy because of the opportunity and people. After living in Lubbock for 4 years while getting my bachelors degree, I found a new appreciation and love for West Texas. Being able to give back to this community has helped me become a better person and future pharmacist.
