

YOUR *life* • OUR PURPOSE

KIARA REDMON
School of Health Professions

BECAUSE YOU GAVE...

I cannot thank you enough for investing in my future as a physician assistant. I am passionate about being a physician assistant because I believe we are a part of the solution to improve healthcare. The majority of our patient population is the elderly community and there is a need for easier access to providers, especially in rural, underserved, and underinsured populations. Physician assistants help meet that demand and because of your generosity, I will be able to meet the needs of patients in those communities.

WITH YOUR SUPPORT, I CAN...

These scholarship funds will assist me with paying off some of the debt I've acquired throughout PA school. Aside from my living expenses, during my first year of physician assistant school I had to acquire a new form of transportation. This has been a significant stressor for me financially and because of you, some of that stress has been relieved.

WHY I CHOSE TTUHSC...

I can truly say I identify with the goals and missions of the TTUHSC School of Health Professions. There is a genuine emphasis placed on student-centered learning and interprofessional education. The School of Health Professions has provided an environment that makes students feel valued, motivated, encouraged, and fully prepared to be future healthcare providers and lifelong learners. I am passionate about serving the underserved and the School of Health Professions makes it their number one priority to provide connections for students within medically disadvantaged communities.

KATY BOREN

School of Health Professions

BECAUSE YOU GAVE...

Thank you so much for your investment in me. Gaining this award is special to me as I struggled to adjust to school the first semester and spent countless hours learning how to excel here. This scholarship makes me feel like I belong here and I have done the work required for this consideration. I hope to do the same for another student one day.

WITH YOUR SUPPORT, I CAN...

This scholarship will allow me to obtain some additional study materials I need as references in my clinical rotations. I often refer back to my didactic classes during the rotations and will now be able to obtain any materials I need. This money will also assist me in paying rent at various places in Texas. Relocating every six weeks is an expensive task. This money will insure that I will be able to focus on my clinical service.

WHY I CHOSE TTUHSC...

I chose TTUHSC because its mission of serving west Texas means a lot to me. As a West Texas native, I was well aware that the program would further my goals. The program provides a tailored learning path designed to serve the people of this region. I hope to be able to give back to the school one day.

REGAN ANTHONY
School of Health Professions

BECAUSE YOU GAVE...

I am honored to be trusted with investment and to be part of the TTUHSC community. As a future graduate PA I will strive to honor this program by being a respectful, effective and a knowledgeable provider. This opportunity would not be possible without the support and investment from the generous donors and those that believe in my potential. My goal is to be able to provide a student with the same support I have been given once I am able. Thank you for giving me this opportunity.

WITH YOUR SUPPORT, I CAN...

The funds from this scholarship will be used to help pay for my tuition for the Fall 2020 and Spring 2021 semesters. This will enable me to decrease my student loan debt and have some peace of mind in regards to financial stress. I will be able to save more funds and put that towards cost of living and learning resources for my education.

WHY I CHOSE TTUHSC...

TTUHSC focuses on providing adequate health care and resources to the rural communities in West Texas. I myself am from a small community in West Texas that is over an hour from any large hospital. The TTUHSC PA program gives us the opportunity to give back to these communities by providing excellent health care without requiring the patients to travel to the city. I received my undergrad at Texas Tech University, the culture and small nit community is encouraging and inspiring. There is never an unfriendly face and I hope to continue this legacy around West Texas.
