

# YOUR *life* • OUR PURPOSE

**FAITH GENTRY**

School of Health Professions

## BECAUSE YOU GAVE...

I am so thankful for this scholarship! It will allow me to finish out the last year of my graduate career focusing on becoming a more competitive applicant for externship placements instead of working additional jobs to pay for my school. I hope to be selected for a fourth-year placement that not only allows me to see and help more patients but also allows me to gain knowledge about the field that I can utilize in research projects that can help professionals in the field of audiology improve their patient's hearing and lives.

## WITH YOUR SUPPORT, I CAN...

The funds awarded to me by these scholarships will be applied directly to my graduate tuition. This aid will help lift some of the financial responsibilities of school and will allow me to reduce the number of work responsibilities I would need to take on in order to pay for school expenses. I will now be able to focus more on becoming the best clinician I can be in order to provide the best care to the patients I serve.

## WHY I CHOSE TTUHSC...

When researching schools with audiology programs, I found that Texas Tech was an easy choice because it offers financial support to students that would not normally be able to afford such a prestigious education. I feel that the professors in my program do everything they can to provide us with real-world knowledge and the skills to be successful professionals. Texas Tech provides its students with new and current equipment, facilities, and information that helps us to become well-rounded individuals who are competitive applicants in our career fields. I am honored to go to such a beautiful and respected university.
