

YOUR *life* • OUR PURPOSE

KEVIN LE

School of Health Professions

BECAUSE YOU GAVE...

Thank you for your contribution to the future generations of the health field. As a future DPT, I plan to become a clinical instructor to guide future clinicians in their journey to acquire knowledge. At the same time, I will continue staying up to date with new research and acquiring more knowledge about the field myself.

WITH YOUR SUPPORT, I CAN...

Receiving this scholarship will allow for me to continue pursuing my journey to become a Doctor of Physical Therapy. This year has been hard financially due to the economic effects of the coronavirus. It is one less consequence of Covid-19 to worry about with such a crazy year so far. It will help me pay for tuition to finish the program during my clinical rotations.

WHY I CHOSE TTUHSC...

What really pulled me to choose TTUHSC was the interaction with the faculty during my interview. I felt very connected to the faculty because our values and insights aligned. Other interactions with other schools were cold and generic. I believe the professors worked with us to become great clinicians by figuring out what our strengths and weaknesses are so that we can work on them.
