

YOUR *life* • OUR PURPOSE

AMBER NANNI
School of Health Professions

BECAUSE YOU GAVE...

Thank you so much for your generosity. My academic career would have to be put on hold without the gifts people like you give. I aspire to also give back through scholarships once I am an established alumni to help fund the future of health professionals help achieve their goals as well. Thank you again for all that you give back.

WITH YOUR SUPPORT, I CAN...

This scholarship will be going directly to buying the books required for this upcoming semester. All extra money will go towards paying for housing expenses. Scholarships like these help me avoid taking out loans that will follow me around after graduating. I am extremely gracious for any assistance given and appreciate those willing to help fund the education of future healthcare providers.

WHY I CHOSE TTUHSC...

Originally, I attended Texas Tech University. After volunteering at the TTUHSC clinics in a variety of departments I felt the sense of community the clinic had. Upon research I discovered the amazing programs the HSC had to offer that would help prepare me for my aspirations of becoming a physician but also I knew the type of healthcare workers they created that are caring, passionate, and empathetic. I am excited to be applying to the TTUHSC SOM this application cycle in hopes to continue my career at the HSC.
