

# YOUR *life* • OUR PURPOSE

**ALYSSA MATHEW**  
School of Health Professions

## BECAUSE YOU GAVE...

I would like to thank you for making this scholarship possible. This money will allow me to further my education to becoming a speech pathologist. My dream is to change the lives of young children through speech therapy and my education is crucial to that dream becoming a reality. After graduation in May 2021, I plan to continue my education into my Master's Degree in Speech Pathology.

## WITH YOUR SUPPORT, I CAN...

With this scholarship I will further my education to become a speech pathologist. This amount awarded to me covers a significant portion of the cost leftover after loans have been processed. This amount can be used toward my everyday needs while in school. Grocery and electricity bills, and many other everyday necessities is what this money will be put toward.

## WHY I CHOSE TTUHSC...

Texas Tech University Health Sciences Center made me feel at home and welcomed when I first visited. It was one of the last schools I toured but as soon as I walked in through the doors, it felt contrasting to the other universities I had toured. The success rate of each of their programs showed that the staff and education provided is really meant to allow for students to succeed. TTUHSC is special to me because I know I am getting educated from one of the best universities with some of the most caring staff.
