BECAUSE YOU GAVE...

I want to thank you so much for your contribution to my education career. It is an amazing thing to have a scholarship in graduate school. Your thoughtful donation helps students like me every academic year and inspires them to work hard and to succeed, as I very much intend to do. Thank you so much for your thoughtfulness and care about the education of the students in the Texas Tech University Health Sciences Center.

WITH YOUR SUPPORT, I CAN...

My parents had me at 19 years old. From the very beginning This scholarship will help me tremendously with the cost of graduate school. It will allow me to focus on my school work and apply myself wholeheartedly to the program and my clinical work. Every little bit of financial aid and support from the school puts me one step closer to achieving my dream of becoming an audiologist.

WHY I CHOSE TTUHSC...

There were actually a lot of options that I had in graduate schools to attend. However, I went and toured the programs and facilities at several of these schools; but, when I got to TTUHSC it immediately felt like somewhere I knew I could be comfortable and succeed in my intended field. The staff made a wonderful impression on me and even knew who I was from my application. It was a great feeling to know and truly see that this staff takes their students in with open arms and offering support while maintaining high expectations from us.

BECAUSE YOU GAVE...

The continuation of my graduate education in the PhD program is entirely dependent on this scholarship from the school.

Without the scholarship, I would not be able to complete my PhD degree and hence my career goals.

WITH YOUR SUPPORT, I CAN...

My career dream would not be possible without the scholarship and TTUHSC and hence an option of better life. I humbly thank the donor for providing me with this precious opportunity of learning at an esteem higher learning organization. Without the aid from donor and thus the scholarship I would not be in a position to seek PhD degree. I hope some day, I would be able to contribute to society's wellness through health related research activities with knowledge gained from the PhD degree earned at TTUHSC.

WHY I CHOSE TTUHSC...

The PhD program at TTUHSC is tailored to encompass different specialty of rehabilitation science working at different levels and contributing together in its development. The faculty is both dedicated and innovative in the field of rehabilitation science working on the underlying mechanisms of an intervention, different aspects of disease and its effects on the individual as a whole. Furthermore, the commitment to innovative research, collaboration of health care professionals, along with advancing students knowledge makes it an ideal choice. TTUHSC's mission aspire student's ambitions towards being a dedicated clinician, an excellent educator and humanitarian. I sought an higher learning organization that would share my goals and provide me with tools and educational experience that would help me to achieve my PhD degree.
