Texas Tech University Health Sciences Center  
School of Health Professions

## BECAUSE YOU GAVE...

Thank you so much! As a young married student, the end of tuition and fees can seem far away at times. I am so thankful that you believe in my potential as a student and future speech-language pathologist enough to support me as I finish this final year. While your financial support lifts a tangible burden, your belief in my capabilities gives me confidence to continue learning and growing during some very late nights, early mornings, and long days. Thank you.

## WITH YOUR SUPPORT, I CAN...

This financial aid allows me to finish my final year of graduate school without distraction. As I begin thinking about jobs, it is easy to feel pressured to accept a position that will provide financial stability after years of paying college and graduate tuition. However, with this scholarship, I am able to keep my focus centered on learning. What a blessing it is to simply be able to focus becoming the best clinician I can be!

## WHY I CHOSE TTUHSC...

I grew up in West Texas, and I received my undergraduate degree from TTUHSC. As a student in an undergraduate program, I was able to witness firsthand the level of knowledge, commitment, and compassion provided by the faculty. I could not imagine learning about the art of being a clinician from any other set of people in the world, and I have been so thankful for the way they have helped shape me as a student, person, and health care professional.
