BECAUSE YOU GAVE...

TTUHSC has low in-state graduate tuition, however, the reason I accepted more student loans my first year in the PA program was the higher cost of living in Midland, Texas. This scholarship will allow me to reduce the number of federal students loans I accept this upcoming year and reduce the overall burden of student loans upon graduation.

WITH YOUR SUPPORT, I CAN...

I understand the choice to donate to this fund comes at a personal financial sacrifice to the donors, which makes this scholarship especially meaningful when accepting it. Simply put, I would like to thank the donors for their investment in my future.

WHY I CHOSE TTUHSC...

Once I was accepted to the TTUHSC PA program, I declined interviews at other programs because the interview process, smaller class size, cost of attendance and Texas location were enough reasons to convince me this was the program I wanted to attend. The interviewers left me with the impression that they cared to know the applicants and were equally invested in our individual professional success. Finally, the student tour of the facility and the way they spoke of their experience in the program reassured me that my impression of the program was not mistaken.
