

ALLISON BAAS

Texas Tech University Health Sciences Center
School of Health Professions

BECAUSE YOU GAVE...

I would like to thank you for your generous scholarship contributions on my behalf. I have been honored to receive the School of Health Professions Scholarship and the Texas Tech University Health Sciences Center Graduate Scholarship and would like to extend to you my sincerest gratitude.

WITH YOUR SUPPORT, I CAN...

Graduating with a Doctor of Physical Therapy degree from Texas Tech is the next step in the direction of achieving my greatest dream in life. Achieving the lofty aspiration of becoming a physical therapist does not come without a financial burden. Since my freshman year of high school, it has been by dream to become a physical therapist and help patients rehabilitate after difficult diagnoses. I found this passion after observing those who helped me in my own injury recovery.

WHY I CHOSE TTUHSC...

Texas Tech was an easy choice for my undergraduate studies, because from the moment I first stepped onto campus as a prospective freshman I felt welcome. The sense of community and dedication to education secured my decision to become a Red Raider. During my four years at Texas Tech, I became heavily involved in my campus ministry and joined on-campus organizations such as the Pre-Physical Therapy Club. These two involvements became what defined my collegiate career.
