

SAMANTHA MARTIN

Texas Tech University Health Sciences Center
School of Health Professions

BECAUSE YOU GAVE...

After graduation, I plan on attending a pediatric physical therapy residency. This scholarship will help me save thousands in tuition, and I will not have to worry as much for paying for my residency applications and interviews. This scholarship will aid in me becoming the best pediatric physical therapist I can be. You are taking a huge burden off my shoulders, and I cannot say thank you enough.

WITH YOUR SUPPORT, I CAN...

I truly appreciate your generous donation. Scholarships allow for me and students like me to pursue our dreams of helping others live their best life. This scholarship will aid in my success through a pediatric physical therapy residency, which will in turn help me become the best pediatric physical therapist I can be and help as many children as I can. This would not be possible without your support.

WHY I CHOSE TTUHSC...

When I interviewed at Texas Tech University Health Sciences Center, I fell in love with the atmosphere and individuals on campus. Everyone is excited to be there and truly loves what they do. The professors and faculty have such a strong passion for our success throughout the program.
