

YOUR *life* • OUR PURPOSE

BRIGET HYDE
School of Medicine

BECAUSE YOU GAVE...

I am truly grateful for this scholarship; it is a blessing. Unlike other students, my parents are unable to contribute financially to my educational and living expenses, so I depend on loans and on the generosity of people like you to be able to afford my medical education. Thank you for believing in me enough to invest in me and in my future. I hope to do that for others one day.

WITH YOUR SUPPORT, I CAN...

These scholarship funds will go directly towards my tuition for medical school, and will directly reduce the amount in loans that I have to take out to pay for school and to cover my living expenses. This will decrease the total amount in loans that I have to pay back, and that's very comforting. Thank you for this generous gift.

WHY I CHOSE TTUHSC...

I had heard amazing things about TTUHSC from family friends in the SOM and when I visited, I experienced some of those amazing things. I ended up choosing TTUHSC because it felt like home. I have come to appreciate my decision even more because I have to come to see how much the faculty care about their students. An example is how the SOM provided both 1st & 2nd year students with educational resources during the COVID pandemic. This somewhat small gesture spoke volumes about how supportive the school is of us.
