

YOUR *life* • OUR PURPOSE

MAYRA GOMEZ
School of Medicine

BECAUSE YOU GAVE...

Thank you for helping me break barriers in my family's story! As a first-generation, I am so proud of graduating from college and excited for what is to come. No one in my family has attempted a medical degree, or been in the medical field in general, mainly because it was not financially possible. I have been given the opportunity to stay in school and work towards becoming a physician that gives back to the community and it is possible because of the scholarships. Thank you for the support!

WITH YOUR SUPPORT, I CAN...

I would like to thank you for this scholarship! It is such a relief to have scholarships such as these help me stay out of debt. These funds will go directly towards the tuition and fees for my education, giving me an advantage of not having to take out a loan for the first semester, therefore saving me lots on interest. Thank you!

WHY I CHOSE TTUHSC...

TTUHSC is a welcoming and diverse school that does not intimidate but rather support and guide you on the path to success. The faculty and students have been so kind and helpful, and the university offers many opportunities that help you become a great physician.

TTUHSC was my first interview and my first acceptance, I felt that picking this school for my medical education was not a hard choice!
