

YOUR *life* • **OUR PURPOSE**

ZACHARY LUJAN
School of Medicine

BECAUSE YOU GAVE...

First, thank you! Every bit of assistance I receive along the way means the world to me and it will all help me complete this leg of my journey. Not only is practicing medicine a future goal but so is being a mentor in the community I end up practicing in. I want to open doors for kids who will be growing up in similar circumstances as I grew up. No matter what they want to become I want to help remove obstacles from their paths.

WITH YOUR SUPPORT, I CAN...

I will buy some of the required equipment and apply the remaining funds towards purchasing health insurance. The equipment will ensure I get the most out of each clinical experience and the health insurance will allow me to meet a requirement and matriculate. Also, I have been without health insurance for a few years so this will be nice to have.

WHY I CHOSE TTUHSC...

I am from Amarillo so am familiar with TTUHSC. Through volunteer experiences, I met several students and some of the teaching physicians. These were very positive experiences. But more than anything, I was invited to attend an admissions seminar. I did not hear about this from my undergrad university nor did I seek it out. This invitation made me feel like they were interested in me. At the seminar it was very informative and the admissions staff was very friendly. I knew that if I received an offer I would accept!
