

YOUR *life* • **OUR PURPOSE**

HAYLEY GIBLER WILLIAMS
School of Medicine

BECAUSE YOU GAVE...

Thank you for helping me pursue my goal of becoming a physician. Medical students across the country are burdened with hundreds of thousands of dollars of debt. Many medical residents say that having to pay off loans, on top of residency, is very stressful. I can't thank you enough for helping alleviate some of that future stress, so that I may have less debt in the future!

WITH YOUR SUPPORT, I CAN...

Because I am in a graduate program, my parents are no longer able to support me. My husband is also in school. Therefore, these funds will help me pay for my final year of medical school, as well as residency application fees. There are sometimes hidden fees during the residency application process, and this scholarship will help me cover any unexpected expenses!

WHY I CHOSE TTUHSC...

I chose TTUHSC because I found the friendliness and camaraderie exhibited amongst the students at my interview to be very appealing. I also feel that my quality of education is very good, and I am very happy with all of the supportive faculty and attendings here at TTUHSC. I feel very prepared for a successful future as a medical resident and physician.
