

YOUR *life* • OUR PURPOSE

LIZA GARCIA
School of Medicine

BECAUSE YOU GAVE...

Your investment in my future as an M.D, is not only a gift to myself but my family. As a first-generation student and future physician, you are directly helping me advance my knowledge and experience, but also that of my family and community. By investing in my future career, you are helping me influence a culture and change the narrative for other Hispanic females from the south Texas border that they can do more and be more.

WITH YOUR SUPPORT, I CAN...

This scholarship will help me pay for a new laptop that is very much needed at this time, as well as allow me to pay off some credit card debt that incurred during the pandemic shutdown paying for rent the past two months. I was laid off from my job and the past few months have been financially overwhelming. I have been concerned about how I would be able to afford a new laptop and the necessary materials to begin the semester. This will give me some relief and allow me to focus on my studies more.

WHY I CHOSE TTUHSC...

TTUHSC spoke to me during my visit. As a non traditional student, I was concerned financially and academically. TTUHSC made me feel welcomed and offered primary care experience, educational facilities and resources that were unmatched at other universities. In addition, it is ranked as one of the most feasible medical schools in the nation that will allow me to manage my finances better. It is also located in a place where there will be ample opportunity to achieve my goal of becoming a doctor.
