

YOUR *life* • OUR PURPOSE

JACQUELINE FALCON
School of Medicine

BECAUSE YOU GAVE...

It is through the generosity of donors like you that many financially burdened students are able to make their dreams come true. By helping provide even the smallest funds, you are helping pay for tuition and allowing the most diverse students to become the doctors they want to be. I have always dreamed of having my own clinic as a family physician to serve the community that I grew up with and supported me since the beginning. With your help, that is now possible and much more. Thank you.

WITH YOUR SUPPORT, I CAN...

Through your generous scholarship, I will now be able to pay for part of my school tuition and continue to train and learn as a fourth year medical student. I will also be able to pay for some room and board to have a safe place to study and attend clinical rotations. Without financial stress, I will be able to focus on learning as much as I can to become the best doctor I can be.

WHY I CHOSE TTUHSC...

I chose TTUHSC as soon as I stepped into the hallway, I felt at home with the student culture and diversity. I also liked that TTUHSC emphasized rural health and inter-professional communication, factors I consider important for my training. So far, TTUHSC has given me that and much more. I have become knowledgeable in medicine and have learned to be a good team player and leader. I am confident that I will be ready and appropriately trained to take care of my patients comfortably.
