

# YOUR *life* • OUR PURPOSE

**BERNARDO GALVAN**  
School of Medicine

## BECAUSE YOU GAVE...

Words fail me and truly I think a big 'ole hug is necessary to express my gratitude. I am extremely thankful in your investment into my current educational experience. Not having to worry about finances allows me liberty to partake in more volunteer and student lead leadership opportunities. A little insight into my aspirations, I recently commissioned with the Navy and look forward to taking care of military personnel and their families. Again, thank you!

## WITH YOUR SUPPORT, I CAN...

With the donation, I will be able to afford supplemental study materials for my Step 1 exam. My generation is stuck in the change between a scored and pass/fail system. Either way, I want to perform my best on the exam and the scholarship will allow me the opportunity to purchase materials such as Boards and Beyond and the most recent First Aid.

## WHY I CHOSE TTUHSC...

I attended Texas Tech University for my undergraduate program and felt extremely welcomed by the Lubbock Community. Interview day gave me the confidence that I could find a new group of friends given that many of mine graduated and moved. The friendly and collaborative feeling definitely made the school my top choice.
